Date

SECTION III

PLEASE COMPLETE THE FOLLOWING INFORMATION FOR ANY CHANGES WITHIN THE SCHOOL DISTRICT.

School building has been sold. Date of Sale: _____

School has been closed. Date closed: _____

School building has been demolished. Date: _____

School building is asbestos free since last reinspection: _____

Please explain in writing why the school building is now asbestos free and include the supporting documentation.

If a new school building has been added to the district, submit either an exclusionary statement or a management plan and inspection report. Include the complete name, address and city of school building.

Explain in writing if the address of the building is different than the address on this form:

Environmental Notification to Occupants

To: Faculty, Staff and Parents
From: Chicago Public Schools
Date: March 29, 2016

RE: Metcalfe Academy, Unit 31061
12339 S Normal Avenue
Chicago, IL, 60628

Dear Faculty, Staff and Parents,

This letter is to notify you that the 2016 asbestos three year re-inspection has been completed at Metcalfe Academy , following the Federal Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E and is available for your review at the main office of the school.

Although asbestos-containing materials have been identified at Metcalfe Academy, there is no reason to believe that any threat to the health of students or staff exists at this time. CPS will continue to carefully monitor the condition of asbestos-containing materials and if conditions warrant, all appropriate steps will be taken to maintain the health and safety of all building occupants.

If you have any questions regarding this matter or require additional information, please feel free to contact Robert Christlieb, the designated Local Education Authority's Designated Person at (773) 553-3197 .

Name: Robert Christlieb

II. EXECUTIVE SUMMARY

GSG Consultants, Inc. was retained by the Chicago Public Schools (CPS) to perform a three-year asbestos reinspection of the Metcalfe Academy. This inspection was conducted in accordance with the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) part 763.92 (b), and the ongoing Operations and Maintenance Program (O&M) originally designed in the School's Asbestos Management Plan. The purpose of this three-year reinspection is to record any condition changes in the asbestos-containing building material (ACBM) in the school since the previous three-year reinspection and the six-month periodic surveillance, to identify, assess, and include any Homogeneous Areas (HA) not identified in the Management Plan, and to recommend an appropriate response action to manage asbestos.

The inspector conducted a three-year reinspection of this facility under Illinois Department of Public Health (IDPH) school reinspection requirements and AHERA, sections 763.85 and 763.88. The main building and each addition to the main building, if constructed at different dates, were inspected separately. Laboratory accreditations are included in Appendix C, laboratory results are included in Appendix D, and chain of custody forms are included in Appendix E.

Note: During previous inspections, some of the HA(s) were identified together as 9" x 9" floor tile (FT), mastics assoc. with 9" x 9" FT, 12" x 12" FT, mastics assoc. with 12" x 12" FT, pipe insulation, etc. Some of these HA(s) have been re-identified by areas that are uniform in color, texture, construction date, application date, and general appearance.

The inspector has determined the following:

A. The following HAs have changed assessment categories for Building 3190:

B. The following new homogenous areas have been identified for Building 3190:

C. This reinspection covered only physically accessible and visible areas and materials that were identified in the LEA's management plan. The following materials were concealed and/or contained in areas that were inaccessible for sampling and have been classified as Assumed:

04A	12"X12" CRÈME W/BEIGE SPECKS FLOOR TILE
04B	12"X12" CREAM W/ TAN SPECKS FLOOR TILE
05A	TAN CARPET MASTIC - NOT OBSERVED
05B	BROWN CARPET MASTIC - NOT OBSERVED
05C	BLUE CARPET MASTIC - NOT OBSERVED
07	INSULATION IN FIRE RATED DOORS
08	12"X12" BROWN AND WHITE SPECKED FLOOR TILE
08A	4" TAN BASEBOARD
13	12"X12" White w/Gray Specks Floor Tile
13A	LIGHT BROWN CARPET MASTIC
14	Blue Carpet Adhesive
15	Hard Fittings on Fiberglass
16	2 x 4 White Dotted Ceiling Tiles
17	Lab Tables
18	White Ceramic Tile Grout
19	White Ceramic Tile Adhesive
20	12 x 12 Pink with White Streaks Floor Tile
20M	12 x 12 Pink with White Streaks Floor Tile Mastic
21	Brown Linoleum
21M	Brown Linoleum Mastic
22	Drywall
23	2 x 2 White Fissured Ceiling Tiles
24	Tan Baseboard
25	Tan Baseboard Adhesive
26	Brown Ceramic Tile Grout

The following areas were deemed to be inaccessible:

05A	TAN CARPET MASTIC - NOT OBSERVED
05B	BROWN CARPET MASTIC - NOT OBSERVED
05C	BLUE CARPET MASTIC - NOT OBSERVED
10A	BROWN BASEBOARD MASTIC
10B	BLACK BASEBOARD MASTIC
10C	BROWN BASEBOARD MASTIC
14	Blue Carpet Adhesive
19	White Ceramic Tile Adhesive
20M	12 x 12 Pink with White Streaks Floor Tile Mastic
21M	Brown Linoleum Mastic

Materials were also listed as "assumed" if they were in good condition and sampling was not conducted to avoid damage.

This reinspection was conducted by Keith Clough, IDPH License # 100-02950. The Management Plan was updated by Jigar Shah, IDPH License # 100-07342. Inspector and Management Planner Licenses are included in Appendix B.

III. METHODOLOGY

Tasks performed on-site included the following:

1. Review current management plan, identify HA(s) and extract appropriate information.
2. Examine and verify abatement records.
3. Touch and visually and physically reinspect and reassess the condition of all friable known or assumed ACBM.
4. Touch and visually and physically reinspect all non-friable known or assumed ACBM to determine whether these materials have become friable since the last inspection or periodic surveillance.
5. Identify any condition changes that may affect Hazard Ranking of known ACBM or Assumed ACBM, as well as any HA(s) that have become friable since the last reinspection.
6. Collect bulk samples from each newly discovered friable HA or previously assumed and submit for laboratory analysis.
7. Tabulate reinspection findings and submit for management planner review and recommendations with appropriate response actions based on the AHERA Damage Category of the ACBM.
8. Submit reinspection findings and management planner recommendations to the LEA within thirty (30) days for inclusion into the management plan.

IV. ABATEMENT HISTORY

The information collected from the existing management plan and inspection report(s) and from interviews with the school official revealed that the following asbestos abatement was conducted at the school since the previous Three year Reinspection.

Abatement Dates:

V. REASSESSMENTS AND RECOMMENDATIONS

The reassessments and recommendations are summarized in Tables I and II on the following pages. Detailed Hazard Assessment Sheets and Drawings and Photos (if applicable) are included in Appendix A.

VI. CONCLUSIONS

The Metcalfe Academy Building 3190 Three-Year reinspection has been completed and response actions have been recommended for both friable and non-friable materials. A timely execution of the response actions recommended will enable the LEA and the Designated Person(s) to effectively manage the existing ACBM.

This three-year reinspection report should be inspected in the current Management plan at the CPS Central Office, and one (1) copy should be kept at the school for use when planning any renovation and/or demolition activities in areas where ACBM has been identified. Also, periodic surveillance documentation and any summary reports from any response actions that are executed at the school should be used to update the Management Plan.
