Environmental Notification to Occupants

To: Faculty, Staff and Parents From: Chicago Public Schools

Date: March 29, 2016

RE: Von Steuben Metro Science Center, Unit 47081

5039 N. Kimball Ave. Chicago, IL, 60625

Dear Faculty, Staff and Parents,

This letter is to notify you that the 2016 asbestos three year re-inspection has been completed at Von Steuben Metro Science Center, following the Federal Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E and is available for your review at the main office of the school.

Although asbestos-containing materials have been identified at Von Steuben Metro Science Center, there is no reason to believe that any threat to the health of students or staff exists at this time. CPS will continue to carefully monitor the condition of asbestos-containing materials and if conditions warrant, all appropriate steps will be taken to maintain the health and safety of all building occupants.

If you have any questions regarding this matter or require additional information, please feel free to contact Robert Christlieb, the designated Local Education Authority's Designated Person at (773) 553-3197.

II. EXECUTIVE SUMMARY

GSG Consultants, Inc. was retained by the Chicago Public Schools (CPS) to perform a three-year asbestos reinspection of the Von Steuben Metro Science Center. This inspection was conducted in accordance with the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) part 763.92 (b), and the ongoing Operations and Maintenance Program (O&M) originally designed in the School's Asbestos Management Plan. The purpose of this three-year reinspection is to record any condition changes in the asbestos-containing building material (ACBM) in the school since the previous three-year reinspection and the six-month periodic surveillance, to identify, assess, and include any Homogeneous Areas (HA) not identified in the Management Plan, and to recommend an appropriate response action to manage asbestos.

The inspector conducted a three-year reinspection of this facility under Illinois Department of Public Health (IDPH) school reinspection requirements and AHERA, sections 763.85 and 763.88. The main building and each addition to the main building, if constructed at different dates, were inspected separately. Laboratory accreditations are included in Appendix C, laboratory results are included in Appendix D, and chain of custody forms are included in Appendix E.

Note: During previous inspections, some of the HA(s) were identified together as 9" x 9" floor tile (FT), mastics assoc. with 9" x 9" FT, 12" x 12" FT, mastics assoc. with 12" x 12" FT, pipe insulation, etc. Some of these HA(s) have been re-identified by areas that are uniform in color, texture, construction date, application date, and general appearance.

The inspector has determined the following:

A. The following HAs have changed assessment categories for Building 1610:

37 Aircell Pipe Insulation

B. The following new home	ogenous areas have t	oeen identified for Bu	uilding 1610:	

C. This reinspection covered only physically accessible and visible areas and materials that were identified in the LEA's management plan. The following materials were concealed and/or contained in areas that were inaccessible for sampling and have been classified as Assumed:

10 104	1'x1' Acoustical Walls 12" x 12" Gray w/ White & Dark Gray Speckles
105	VFT 12"x12" Gray w/ Wht & Drk Gray Speckles VFT
	Mastic
109	12"x12" White w/ Tan Specks VFT
111	12"x12" White w/Gray Streaks VFT
112	12" x 12 " White w/ Gray Streaks VFT Mastic
113	12 x 12 inch White w/Black Streaks VFT
113 A	12 x 12 inch White w/Black Streaks VFT Mastic
114	Green Terrazzo
115	12"x12" off white with tan specks VFT
115A	12"x12" off white with tan specks Mastic
116	12"x12" light gray with gray & white specks VFT
116A	12"x12" light gray with gray & white specks Mastic
117	12"x12" gray with gray & white specks VFT
117A	12"x12" Gray with gray & white specks Mastic
118	12"x 12"Beige VFT
118A	12"x 12"Beige VFT Mastic
119	Gray linoleum with white, blue & red streaks
119A	Gray Linoleum with white, blue & red streaks
	Mastic
120	12"x 12"white with brown specks VFT
120A	12"x 12"white with brown specks VFT Mastic
121	12"x 12"Beige with white & brown streaks VFT
121A	12"x 12"Beige with white & brown streaks VFT
	Mastic
122	Decorative Plaster
123	12"x 12"Ceiling Tile
123A	12" x 12"Ceiling Tile Mastic Pucks
124	12"x 12"Off White with tan & white streaks VFT
124A	12"x 12"Off White with tan & white streaks VFT
	Mastic
125	9"x 9"Sand Streaked VFT
125A	9"x9" Sand Streaked VFT Mastic
126	Tectum Ceiling Tiles
21	12"x12" Black VFT
50	Blue Linoleum (NOT OBSERVED)
51	Blue Linoleum Mastic (NOT OBSERVED)
57	12"x12" White w/ Gold Streaks VFT
59	12"x12" Gray VFT
60	12"x12" Gray VFT Mastic

02	J XJ Tall W/ Beige Streams VI I Wastie
65	12"x12" Taupe w/ White Streaks VFT
69	12"x12" Sand VFT
71	12"x12" White w/ Tan Spots VFT
73	12"x12" White w/ Beige Streaks VFT
74	12"x12" White w/ Beige Streaks VFT Mastic
77	12"x12" White w/ Black Streaks VFT
79	12"x12" Taupe VFT
80	12"x12" Taupe VFT Mastic
81	12"x12" Brown/Gray VFT
83	12"x12" Cream VFT
85	12"x12" Off White VFT
86	12"x12" Off White VFT Mastic
87	12"x12" Light Purple VFT
99	12"x12" White w/ Black Streaks VFT Mastic
AA	Glue dot on acoustical walls HA# 10
CC	Glue dot assocate with HA # BB
D	Carpet Mastic
DD	12"x 12" ceiling tile, white w/holes
EE	Glue dots assocate with HA # DD
FF	Lab Counter tops
GG	Lab Fume hoods

9"x9" Tan w/ Beige Streaks VFT Mastic

The following areas were deemed to be inaccessible:

62

Glue dots assocate with HA # DD

Materials were also listed as "assumed" if they were in good condition and sampling was not conducted to avoid damage.

This reinspection was conducted by Panfilo Carrazco, IDPH License # 100-11089. The Management Plan was updated by Jigar Shah, IDPH License # 100-07342. Inspector and Management Planner Licenses are included in Appendix B.

III. METHODOLOGY

Tasks performed on-site included the following:

- 1. Review current management plan, identify HA(s) and extract appropriate information.
- 2. Examine and verify abatement records.
- 3. Touch and visually and physically reinspect and reassess the condition of all friable known or assumed ACBM.
- 4. Touch and visually and physically reinspect all non-friable known or assumed ACBM to determine whether these materials have become friable since the last inspection or periodic surveillance.
- 5. Identify any condition changes that may affect Hazard Ranking of known ACBM or Assumed ACBM, as well as any HA(s) that have become friable since the last reinspection.
- 6. Collect bulk samples from each newly discovered friable HA or previously assumed and submit for laboratory analysis.
- 7. Tabulate reinspection findings and submit for management planner review and recommendations with appropriate response actions based on the AHERA Damage Category of the ACBM.
- 8. Submit reinspection findings and management planner recommendations to the LEA within thirty (30) days for inclusion into the management plan.

IV. ABATEMENT HISTORY

The information collected from the existing management plan and inspection report(s) and from interviews with the school official revealed that the following asbestos abatement was conducted at the school since the previous Three year Reinspection.

Abatement Dates:

V. REASSESSMENTS AND RECOMMENDATIONS

The reassessments and recommendations are summarized in Tables I and II on the following pages. Detailed Hazard Assessment Sheets and Drawings and Photos (if applicable) are included in Appendix A.

VI. CONCLUSIONS

The Von Steuben Metro Science Center Building 1610 Three-Year reinspection has been completed and response actions have been recommended for both friable and non-friable materials. A timely execution of the response actions recommended will enable the LEA and the Designated Person(s) to effectively manage the existing ACBM.

This three-year reinspection report should be inspected in the current Management plan at the CPS Central Office, and one (1) copy should be kept at the school for use when planning any renovation and/or demolition activities in areas where ACBM has been identified. Also, periodic surveillance documentation and any summary reports from any response actions that are executed at the school should be used to update the Management Plan.
