

**ILLINOIS DEPARTMENT OF PUBLIC HEALTH
AHERA THREE YEAR REINSPECTION
ASBESTOS ABATEMENT PROGRAM
SCHOOL INFORMATION FORM**

SECTION I

NAME OF SCHOOL DISTRICT: CHICAGO SCHOOL DIST 299
SCHOOL ID NUMBER: 14-016-2990-640X
SCHOOL NAME: Namaste Charter School
ADDRESS OF SCHOOL: 3540 S. Hermitage
CITY: Chicago, IL, 60609

DATE LAST THREE YEAR REINSPECTION WAS COMPLETED

If the address on this form is different than the address of the building, submit a written explanation.

SECTION II *(Please type or print)*

PLEASE COMPLETE THE FOLLOWING FOR YOUR THREE YEAR REINSPECTION:

DATE REINSPECTION COMPLETED: _____ ENROLLMENT 469

IDPH INSPECTOR LICENSE NUMBER: _____

IDPH LICENSED INSPECTOR NAME(Please Print): _____

IDPH MP LICENSE NUMBER: _____

IDPH LICENSED MANAGEMENT PLANNER NAME (Please Print): _____

DESIGNATED PERSON (Please Print): _____ PHONE: _____

SECTION III

PLEASE COMPLETE THE FOLLOWING INFORMATION FOR ANY CHANGES WITHIN THE SCHOOL DISTRICT.

School building has been sold. Date of Sale: _____

School has been closed. Date closed: _____

School building has been demolished. Date: _____

School building is asbestos free since last reinspection: _____

Please explain in writing why the school building is now asbestos free and include the supporting documentation.

If a new school building has been added to the district, submit either an exclusionary statement or a management plan and inspection report. Include the complete name, address and city of school building.

Explain in writing if the address of the building is different than the address on this form:

RE: Namaste Charter School, Unit 66271
3540 S. Hermitage
Chicago, IL, 60609

Dear Faculty, Staff and Parents,

This letter is to notify you that the 2019 asbestos three year re-inspection has been completed at Namaste Charter School, following the Federal Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E and is available for your review at the main office of the school.

Although asbestos-containing materials have been identified at Namaste Charter School, there is no reason to believe that any threat to the health of students or staff exists at this time. CPS will continue to carefully monitor the condition of asbestos-containing materials and if conditions warrant, all appropriate steps will be taken to maintain the health and safety of all building occupants.

If you have any questions regarding this matter or require additional information, please feel free to contact , the designated Local Education Authority's Designated Person at .

The reinspection report and recommendations have been received by me and appropriate action will be taken by the School District.

Name:

II. EXECUTIVE SUMMARY

was retained by the Chicago Public Schools (CPS) to perform a three-year asbestos reinspection of the Namaste Charter School. This inspection was conducted in accordance with the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) part 763.85 (b), and the ongoing Operations and Maintenance Program (O&M) originally designed in the School's Asbestos Management Plan. The purpose of this three-year reinspection is to record any condition changes in the asbestos-containing building material (ACBM) in the school since the previous three-year reinspection and the six-month periodic surveillance, to identify, assess, and include any Homogeneous Areas(HA) not identified in the Management Plan, and to recommend an appropriate response action to manage asbestos.

The inspector conducted a three-year reinspection of this facility under Illinois Department of Public Health (IDPH) school reinspection requirements and AHERA, sections 763.85 and 763.88. The main building and each addition to the main building, if constructed at different dates, were inspected separately. Laboratory accreditations are included in Appendix C, laboratory results are included in Appendix D, and chain of custody forms are included in Appendix E.

Note: During previous inspections, some of the HA(s) were identified together as 9" x 9" floor tile (FT), mastics assoc. with 9" x 9" FT, 12" x 12" FT, mastics assoc. with 12" x 12" FT, pipe insulation, etc. Some of these HA(s) have been re-identified by areas that are uniform in color, texture, construction date, application date, and general appearance.

The inspector has determined the following:

A. The following HAs have changed assessment categories for Building 7920:

B. The following new homogenous areas have been identified for Building 7920:

C. This reinspection covered only physically accessible and visible areas and materials that were identified in the LEA's management plan. The following materials were concealed and/or contained in areas that were inaccessible for sampling and have been classified as Assumed:

001	Sprayed On Fireproofing
002	Boiler Duct Insulation
003	Pipe Insulation
004	Pipe Joint Insulation
008	Joint Insulation on Fiberglass Pipe Insulation
015	1 1/2 O.D. MJP Pipe Insulation
016	2" O.D. MJP Pipe Insulation
017	9"x 9" Floor Tile
018	Cardboard Pipe Insulation
019	MJP
020	9"x 9" Floor Tile
021	9"x 9" Floor Tile
022	9"x 9" Floor Tile
023	Brick and Mortor
024	Brick and Morter

The following areas were deemed to be inaccessible:

Materials were also listed as "assumed" if they were in good condition and sampling was not conducted to avoid damage.

This reinspection was conducted by , IDPH License # . The Management Plan was updated by , IDPH License # . Inspector and Management Planner Licenses are included in Appendix B.

III. METHODOLOGY

Tasks performed on-site included the following:

1. Review current management plan, identify HA(s) and extract appropriate information.
2. Examine and verify abatement records.
3. Touch and visually and physically reinspect and reassess the condition of all friable known or assumed ACBM.
4. Touch and visually and physically reinspect all non-friable known or assumed ACBM to determine whether these materials have become friable since the last inspection or periodic surveillance.
5. Identify any condition changes that may affect Hazard ranking of known ACBM or Assumed ACBM, as well as any HA(s) that have become friable since the last reinspection.
6. Collect bulk samples from each newly discovered friable HA or previously assumed and submit for laboratory analysis.
7. Tabulate reinspection findings and submit for management planner review and recommendations with appropriate response actions based on the AHERA Damage Category of the ACBM.
8. Submit reinspection findings and management planner recommendations to the LEA within thirty (30) days for inclusion into the management plan.

IV. ABATEMENT HISTORY

The information collected from the existing management plan and inspection report(s) and from interviews with the school official revealed that the following asbestos abatement was conducted at the school since the previous Three year Reinspection.

Abatement Dates:

V. REASSESSMENTS AND RECOMMENDATIONS

The reassessments and recommendations are summarized in Tables I and II on the following pages. Detailed Hazard Assessment Sheets and Drawings and Photos (if applicable) are included in Appendix A.

VI. CONCLUSIONS

The Namaste Charter School Building 7920 Three-Year reinspection has been completed and response actions have been recommended for both friable and non-friable materials. Atimely execution of the response actions recommended will enable the LEA and the Designated Person(s) to effectively manage the existing ACBM.

This three-year reinspection report should be inspected in the current Management plan at the CPS Central Office, and one (1) copy should be kept at the school for use when planning any renovation and/or demolition activities in areas where ACBM has been identified. Also, periodic surveillance documentation and any summary reports from any response actions that are executed at the school should be used to update the Management Plan.
