# Continuous Improvement Work Plan 2012 - 2014

## Overview

The Continuous Improvement Work Plan (CIWP) is a stream-lined, strategic planning process for schools that also meets the state and federal requirements of a school improvement plan. The CIWP uses previous goal and priority setting completed by the schools from the Scorecard metrics, School Effectiveness Framework and Theory of Action. Please see the CIWP Planning Guide at [www.cps.edu/CIWP](http://www.cps.edu/CIWP) for detailed instructions on completing the tool.

School Name	
To get started, please select your school's name from the drop down list:	Enrico Fermi Elementary School

**Developing a CIWP Team**

A CIWP team consists of 6 – 12 committed stakeholders that act as the steering committee for the entire CIWP planning process. The principal should serve as the chairperson of the CIWP Team, appointing other team members from the school and community, which can include members from the ILT and/or LSC. These CIWP Team members should have strengths in collaboration and consensus-building. While the CIWP Team needs to remain small, it should include people with a variety of perspectives.

## Mission & Strategic Priorities

**Instructions:** Write in your Mission Statement. Using your key levers from the Theory of Action, develop 3 - 5 strategic priorities you will focus on over the next two years. Provide a Rationale using these guiding questions: What data (student achievement, school effectiveness framework, etc.) did you use to determine the priority? How does this priority impact instruction? How does this priority help you to achieve your goals? **Tip: When entering text, press Alt+Enter to start a new paragraph.**

### Mission Statement

Enrico Fermi School strives to meet the academic, social and emotional needs of ALL students by implementing a program that differentiates instruction for ALL students. We believe it takes a community to educate a child and that, with continuous support from ALL stakeholders; every student can reach his/her maximum potential, successfully meet future educational goals and become highly productive citizens.

### Strategic Priorities

#	<b>Priority Description:</b> Write in the description of your priority.	<b>Rationale:</b> Write in your rationale (see instructions for guiding questions).
1	Utilize the standard, structured grade-level meeting protocol that is centered around analysis of student work, collaboration and emphasizing best practices.	We have a need to utilize a protocol that consists of a set of guidelines for structuring conversations among teachers and administrators about student work. The goal is to foster a common understanding of student learning expectations for the core content areas and to provide a collaborative forum for examining student work to inform instruction.
2	Teachers deliver Common Core aligned literacy instruction driven by balanced literacy, supported by high quality texts, where deliberate decisions are made for differentiating instruction for each child.	We have a need to implement a more rigorous literacy curriculum that allows for differentiation. Less than 50% of our students (all grades) are making growth targets in literacy.
3	Teachers will effectively implement the CHAPMS model and PBIS process as a part of an all school behavior support system.	With a high rate of misconducts (101 per 100) there is a need to strengthen the existing CHAMPS model and PBIS process to improve classroom management and lower the incidences of misconduct. Improving behavior management will allow us to strengthen our focus on increasing academic rigor.

### Strategic Priority 1

**Instructions:** Develop milestones for each strategic priority that you will implement. Milestones are significant steps that a school must accomplish in the implementation of the strategic priority. Milestones are SMART (Specific, Measurable, Attainable, Realistic, and Time-bound). Indicate the category and group of students to which the milestone applies, the responsible party and the timeline. You will update the status and next steps throughout the year as part of your continuous improvement cycle.
