School Excellence Framework

Culture of & Structure for Continuous Improvement

4 of 4 complete

Score

Leadership & Collective Responsibility:

Leadership & Collective Responsibility is characterized by an unwavering commitment to fulfilling a shared vision of success. There is a clear focus and high expectations for staff and students, motivating the entire school community to continue striving for success for every student.

Vision/Mission is shared at the beginning of the school year during the state of the school address and is shared at each LSC meeting and is shared with staff. Discussed is the alignment between the school's vision and mission and school priorities. A multi-tierd system of supports is present and used to provide academic supports for students.

An MTSS team is active and analyzes data to inform intervention practices.

Teachers and paraprofessionals participate in the MTSS and ILT team to make decisions representative of varied stakeholders.

CPS framework for teaching is used to guide and ground instructional guidance and coaching.

CPS framework for teaching guides instructional planning for all learners.

Teachers follow best practice for delivering instruction based on the GRR model, the Rigor and Relevance framework,

Understanding by Design and Universal Design for Learning.

Administration buffers staff from external distractions to the schools priorities and goals.

School improvement goals are limited to three goals.

Guide for Leadership & Collective Responsibility

- Set the direction and create a sense of purpose by building consensus on and implementing a shared vision.
 - Consider the demographics of the school community in developing a shared vision.
 - Help stakeholders understand the relationship between the school's vision and their initiatives and priorities.
 - Consistently use informal and formal opportunities to champion and articulate the vision.
 - Act in ways that consistently reflect the school's core values, beliefs, and priorities in order to establish trust.
 - Ensure the school's identity, vision, and mission drive school decisions.
 - Use the Multi-Tiered System of Support framework as a standard for how to distribute leadership and make significant decisions both academically and social-emotionally.
- . Inspire a culture of collective responsibility for the success of ALL students in the whole school (not solely teacher's own students).
- Empower others to make or influence significant decisions.
 - Build shared leadership structures and opportunities for job-embedded leadership training and development.
 - Capitalize on the leadership skills of others.
 - Constantly listen and synthesize what is heard, and learn from all sources.
- Employ the skills to effectively manage change.
 - Master skills associated with large-scale strategic planning processes and implementation of such plans.
 - Steer through the challenges associated with making improvements, both large and small.
- Create and sustain a coherent instructional program (coordinated and consistent) with learning goals.
- Use the CPS Framework for Teaching to ground instructional guidance and coaching.

- Model ambitious goals for teaching and learning for all students, including priority groups.
- Draw from the best available evidence to inform instructional improvement decisions.
- . Enable staff to focus and prioritize what matters most.
 - Buffer staff from external distractions to the school's priorities and goals.
 - Limit school improvement goals to a few high leverage activities.
 - Prioritize teaching challenging content, engaging students in learning, rigor and ways to raise achievement.

Suggested Evidence	 ✓ School's vision, beliefs, and how it is shared (e.g. presentations to community, promotional materials) ✓ Five Essentials – Program Coherence
Measures	√ Five Essentials
Five Essentials	Effective Leaders Collaborative Teachers
CPS Framework for Teaching	4d. Growing and Developing Professionally 4e. Demonstrating Professionalism
CPS Performance Standards for School Leaders	A1. Assesses the Current State of School Performance and Develops a CIWP A2. Implements Data Driven Decision Making and Data Driver Instruction A5. School Vision and Mission Drive Decision-Making D4. Demonstrates Change Management

Instructional Leadership Team:

The ILT is characterized by having a consistent structure for teacher leadership that is focused on creating and implementing the theories of action that improve teaching and learning. ILT meetings are a productive forum to identify challenges, collect and review evidence, exchange ideas, and propose and implement solutions to challenges to school improvement.

ILT monitors programs/processes used in the school and consistently monitors whether or not programs/processes are working, and to what degree.

Administration and staff vet programs/processes based on research, data and alignment to school priorities (i.e.GRR, UBD, UDL, R&RF)

ILT monitors program/process implementation with fidelity as an indicator in root cause analysis.

ILT member's understand the teams purpose and instructional priorities as described in the CIWP.

ILT consists of varied stakeholders with balanced work styles that compliment one another for effective performance.

ILT members remain focused on analyzing and addressing issues within the schools sphere of influence.

ILT members use the PSP to look at: school-wide, grade level, small group, and individual data and to drill down to the root cause of deficit data.

ILT uses attendance data, grades, classroom assessments, performance tasks, and district level data to review and revise school and classroom practices as needed.

Data is dis-aggregated to look at trends among student priority groups (i.e. ELs, DLS, AA boys, etc.)

ILT meets twice monthly.

An agenda is constructed and used to guide meeting structure.

Information form ILT meetings is shared with stakeholders to inform school-wide, grade level or individual teacher practices.

Staff leaders are developed amd empowered to lead cycles of learning and problem, solving focused on student learning data and student work.

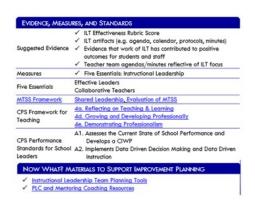

Guide for Instructional Leadership Team

- . Engage in on-going inquiry (e.g. continuous improvement cycles) as a basis for improvement.
 - Gain productive insight and take substantial new action or adjust strategy that clearly addresses root causes.
 - Relentlessly ask, "Is it working?" about every program, initiative, and strategy in the school.
 - Vet Initiatives and strategies on the basis of their direct or proven impact on outcomes.
 - Monitor if previous actions were implemented (fidelity) and working as intended. Ask, "If not, why not?"
- Share leadership for improving teaching and learning with representative school members.
 - Organize the team around a common understanding of team's purpose and instructional priorities.
 - Represent all relevant specialty content areas, programs, related services, and grade bands/department teams and is an appropriate size.
 - Represent a balance of work styles (e.g. task-oriented, provides push-back, synthesizes, etc.)
- Use protocols and ask probing questions.
 - Ask questions focused on factors within sphere of control and avoid a focus on student factors.
 - Use appropriate protocols and level of analysis (grade, school-wide, individuals) for meeting purpose.
 - Systematically consider root cause(s) based on thorough review of evidence.
- Use timely and relevant data/evidence sources.
 - Gather and use current and relevant local student, school, teacher performance (e.g. attendance data, assessment results), and operational data formatively to review and revise school and classroom practices as needed.
 - Disaggregate data for priority student groups (e.g. English learners, diverse learners).

Score

2 **3** 4

- · Schedule and structure frequent meetings.
 - Meet regularly (2-4 times per month).
 - Use an agenda with a clear focus.
- · Collaborate effectively, value transparency, and inform and engage stakeholders.
 - All team members have equity of voice and are actively engaged in asking questions.
 - Celebrate small wins and improvements.
 - Regularly inform and engage stakeholders of key data and work of the ILT.
- . Build the capacity of teacher teams to lead cycles of learning and problem solving focused on student learning data and student work.

Professional Learning: Score

3

Professional Learning includes sufficient time, support, and 'safe practice' space to internalize new knowledge to change practice and beliefs. Adults persevere in collaboration with their colleagues to innovate and improve implementation of new practices.

Data is used to determine performance and practice gaps for the construction of a PL/PD plan.

Needs assessment is conducted to identify individual, small group and whole group PL/PD needs.

PL is relevant to the cultural and linguistic needs of students (i.e. PL of best practices for instructing ELs, providing the language (vocabulary acquisition ans use) so that students can participate in discourse using academic language), using text that is of interest to students and depicts their cultural backgrounds).

Profession learning is tailored to individual staff members, small groups of teachers, or the whole group based on teacher capacity and need.

Teaching staff is encouraged to integrate learnings (from outside sources) into their own planning an instruction and share practices with other staff members.

Teacher leader provides peer coaching and observation. Teachers provide artifacts that depict the impact of PL, coaching, safe practice and feedback.

Administration conducts frequent non-REACH observations to provide coaching and actionable feedback.

Administration provides learning experiences for new teachers that assists in the navigation f REACH and other school specific practices and priorities.

Each new teacher is assigned a mentor that is an open, collaborative colleague (i.e. Plamondon Pal).

Guide for Professional Learning

- Select and design professional learning (PL) to achieve school-wide improvement, including closing priority group achievement gaps.
 - Use data to identify performance and practice gaps to inform PL plan.
 - Use research about best practices to identify potential learning and subject matter experts to support.
 - Solicit feedback from staff to inform selection of PL opportunities.
 - Provide PL relevant to the cultural and linguistic needs of students.
 - Provide both whole staff and differentiated PL to individual teacher levels.
- · Implement and sustain on-going, job-embedded professional learning (PL) (e.g. coaching, peer learning opportunities, action research)
 - Recommend and/or provide PL opportunities directly related to individuals' specific areas of need and professional growth goals.
 - Encourage staff to broaden networks to bring new knowledge and resources to learning environment.
 - Teachers initiate opportunities for professional growth and proactively seek opportunities to enhance content knowledge and pedagogical skill.
- · Structure time for teachers to collaborate and learn together.
 - Create schedules and systems to conduct peer observations, and coaching. Reflect on its impact.
 - Teachers provide and accept collegial support and feedback to/from colleagues.
 - Teachers participate in and facilitate professional inquiry in teams to advance student learning.
- Make 'safe practice' an integral part of professional learning.
 - Allow teachers ample time to try new strategies, refine skills, grapple with implementation problems, and share knowledge and experience.
 - Provide support that addresses the specific challenges of changing classroom practice. Provide coaching/mentoring support to validate continuing to work through struggles.
- . Monitor implementation to ensure staff uses new knowledge to improve practice and it is having the desired effect on practice and student

outcomes

- Conduct frequent non-REACH observations to provide coaching and actionable feedback.
- · Provide induction and support for new teachers.
 - Assign each new teacher a mentor who is skilled in pedagogy and is an open, collaborative colleague.
 - Schedule a series of 'learning experiences' for new teachers that helps them navigate important initiatives (e.g. REACH) and provides information on school specific goals and resources.

Score

1 2

3

Evidence, Measures, and Standards

Aligned Resources:

Resources (e.g. time, budget, staff, and community resources) are aligned to school priorities. Improving achievement guides resource allocation. Making the most of student time and staffing is a priority. The school organizes resources school-wide through schedules and staffing plans that target additional time and individual attention to those students who need it most and to highest priority subject areas.

Instructional time guidelines are used to maximize instructional and academic-engaged time.

Purchased products are researched based and respond to SEF needs

Staff writes grants to support school instructional or SEF needs.

School has endorsed ELS teachers to support the needs of ELs.

School has Special education teachers to support the needs DL students (in the gen.ed. and resource setting)

Administration employs an interview process that requires candidates to demonstrate a lesson (to assess candidate expertise, philosophy, and commitment) along with a structured protocol for questioning candidates in order to select highly qualified

Administration reaches out to previous supervisors of candidates, as well as human resources (is CPS employee) to obtain information about the candidates work history and ethic.

Administration ensures that all students have access to high quality teachers.

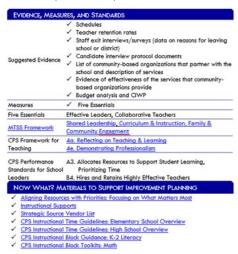

Administration and staff maintains a positive climate and working conditions that attract and retains educator talent.

Staff are encouraged to assume leadership roles and/or pursue personal growth goals.

Guide for Aligned Resources

- Design a school day that is responsive to student needs.
 - Use CPS Instructional Time Guidelines to maximize instructional time.
 - Use CPS Instructional Block Guidelines to maximize academic-engaged time.
- Align the budget to the CIWP priorities and the mission of the school.
 - Avoid overemphasis on the purchase of products/programs that are not research based or do not respond to SEF needs.
 - Leverage strategic source vendors to maximize dollars.
 - Seek and obtain grants to support articulated needs.
 - Use grant funds strategically to support areas of highest need.
 - Maximize the use of supplemental funding to close any priority group achievement gaps.
- Streamline purchase procedures to minimize lapses between ordering and receiving materials.
- Evaluate, to the extent possible, the consequences for student learning of resource allocation decisions to develop an evidence base of outcomes of particular uses of resources.
- Have a 'hiring team' and collaborative hiring process with clear selection criteria to identify and select best available candidates.
 - Actively work to build a pool of potential staff members, particularly difficult to fill positions (e.g. staff to serve English learners).
 - Use an interview process including a protocol for questioning and select highly qualified candidates.
 - Require a classroom lesson demonstration to assess candidate expertise, philosophy and commitment.
 - Check teachers' previous performance at CPS schools.
- Strategically assign teachers to grade and content areas to create a balanced team with a variety of strengths.
 - Ensure all students have fair access to high-quality teachers in the school.
- Effectively utilize Related Service Providers at the classroom level.

- Use data including teacher evaluations and exit interviews to inform a retention strategy.
 - Create a positive climate and working conditions for teaching that attracts and retains educator talent.
 - Create opportunities for growth including opportunities for staff to assume additional leadership roles or pursue personal growth goals.
 - Track retention rates over time and use this information to isolate staffing strengths and identify opportunities to improve.
 - Solicit information from staff using exit interviews/surveys to understand reasons for leaving school or district.
- Make outreach efforts to engage community members as partners and resources.
- Partner with one or more organizations that share the values of the school and have a complementary mission to the school's vision.
 - Monitor the impact of partner organizations' activity.

Expectations for depth & breadth of Student Learning

4 of 4 complete

Curriculum:

The curriculum – what students should know and be able to do - makes standards come alive for students. All students have access to an academically rigorous curriculum that inspires students to think and contribute high quality work to authentic audiences beyond the classroom. The curriculum fully integrates academic and social emotional learning opportunities for all students, including diverse learners, English learners, and advanced learners. The school regularly examines the curriculum to check alignment to standards and opportunities for all students to meet those standards.

Units of instruction vertically and horizontally aligned to network scope & sequence, and pacing guide.

Formative data is used to determine students mastery and teacher instructional pacing

NWEA instructional report data used to drill down to identify essential understandings.

All learners (including ELs and DLs) have full access all content areas and are provided with opportunities to develop academic language and demonstrate mastery.

Staff provides opportunities for meaningful project-based learning.

School integrates field-based learning through partnerships with colleges, universities, and community based organizations.

(Peggy Notebeart Museum, Mayo Clinic & Driscoll Foundation, Under the Rainbow, Mt. Sinai Community Institute, Rush, etc.)

Guide for Curriculum

- Align units of instruction (horizontally/vertically) to scope and sequence maps and pace units and lessons appropriately.
 - Focus so units can be adequately addressed in the time available.
 - Examine formative data to determine mastery and pace. Discuss how much time it takes to adequately address the essential elements, and the
 viability of documents that articulate essential content and timing of delivery (e.g. pacing guides, curriculum maps).
- Utilize the 'big ideas' that should be taught to determine whether students are being taught the body of knowledge, the understandings and the skills expected.
 - Identify the essential understandings what students should learn in greater depth. In other words, know 'covering everything but learning nothing' does not work.
- Expose and extend opportunities for all students to grade appropriate levels of text complexity in all types of texts, including informational
 in all content areas.
 - Articulate language goals that are separate from and support content goals. Literacy reading, writing and speaking are essential 'learning tools'
 across the curriculum (disciplinary literacy).
- Engage all learners in content areas by fully integrating opportunities for all learners, including:

Score

2 3 4

- Diverse learners to demonstrate core knowledge and skills.
- English Learners to develop academic language to demonstrate mastery.
 - Use English and native language development standards in addition to content standards to differentiate instruction and assessments for English learners, to ensure meaningful access to content, regardless of English language proficiency.
 - Understand research and implement programs to develop native language literacy for English learners.
- Advanced learners to extend core knowledge and skills.
- Integrate academic and social emotional learning.
- Connection to real world, authentic application of learning. For example,
 - · Provide opportunities for meaningful project-based learning.
 - Integrate field-based learning through partnerships with city institutions (e.g. museums), colleges, universities, and community based organizations.
 - Curriculum is culturally relevant/sustaining and provides opportunities to explore and celebrate students' communities, culture, history, and language.
 - Curriculum is tailored to the strengths, needs, and interests of each student.

Instructional Materials:

Materials to present learning content and what the learner uses to demonstrate are characterized by variability and flexibility. Materials are identified and adapted to increase access to learning for all students. Materials include multimedia and embedded, justin-time supports; varied tools and supports; alternative pathways, and varied levels of support and challenge. (adapted from UDL Guidelines 2.0)

Instructional resources are aligned to curricular plans and expectations of the standards

Instructional resources are selected and adapted based on learning objectives and learner needs

Instruction resources include a variety of quality media, manipulatives and supplies to achieve valued learning outcomes.

Instructional planning and implementation is aligned to student outcomes.

Instructional resources/materials are updated/upgraded in response to new information and understandings

Teachers and students have available a variety of high quality, standards-aligned instructional materials and resources.

Materials are in English and native language for English learners.

Reference and resource materials are readily available and circulated throughout the school.

Students interact with instructional materials to engage all modalities in the learning process.

The needs of the students at different performance levels are met by using a variety of instructional strategies and materials that allow students to draw on all of their learning capacities.

Units and lessons include grade-appropriate levels of texts and other materials so every student can access the content/skills.

The teacher models effective use of various materials.

Students understand that materials are a means to acquire language, knowledge, and competencies.

Technology enhances students' higher order, creative thinking and problem solving.

Materials connect subject area content to real life applications.

Use protocols to collectively reflect regularly on the level of cognitive demand asked of students across the school, particularly priority group students, to think strategically as speakers, listeners, readers, and writers

Guide for Instructional Materials

Instructional materials (including technology) are.....

- Aligned to curricular plans and expectations of the standards.
- Varied and flexible.
 - Are selected and adapted based on learning objectives and learner needs.

Score

2 3

4

- Include a variety of quality media, manipulatives and supplies to achieve valued learning outcomes.
- Intentionally planned by identifying or adapting appropriate tools (including technology) for specific instructional needs.
 - Student outcomes and developmental appropriateness determine when and who will use the materials.
 - Materials are updated/upgraded in response to new information and understandings.
- . Equitably available and accessible to all teachers and students.
 - Teachers and students have available a variety of high quality, standards-aligned instructional materials and resources.
 - Materials are in English and native language for English learners.
 - Reference and resource materials are readily available and circulated throughout the school.
- Include multimedia and embedded, just-in-time supports (e.g. hyperlinked glossaries, background information, and on-screen coaching) for conveying conceptual knowledge.
 - Students interact with instructional materials to engage all modalities in the learning process.
 - Technology is integral to students learning experiences.
 - Units and lessons include grade-appropriate levels of texts and other materials so every student can access the content/skills.
- Include tools and supports needed to access, analyze, organize, synthesize, and demonstrate understanding in varied ways for learning and expression of knowledge.
 - The needs of the students at different performance levels are met by using a variety of instructional materials that allow students to draw on all of their learning capacities.
 - The teacher models effective use of various materials.
 - Students understand that materials are a means to acquire language, knowledge, and competencies.
 - Technology enhances students' higher order, creative thinking and problem solving.
 - Materials connect subject area content to real life applications.
- Include alternative pathways including choice of content, varied levels of support and challenge, and options for recruiting and sustaining interest and motivation – for engaging and learning.
 - Students make choices about instructional materials as part of learning.
 - Materials address the needs of the total child: cognitive, linguistic, social, emotional, physical, and aesthetic.
 - Consumables are often non-print supplies that promote active, hands-on learning.

Suggested Evidence	Cross-section of materials from a variety of content areas and grade levels Evidence of soctfolding and differentiation for all students to access the content/skills to access the content/skills Presence of varied texts, supplementary media (e.g., videos)
Measures	✓ SQRP Attainment and Growth

✓ UDL PD Modules	for Learning Guidelines 2.0

Rigorous Student Tasks:

The school regularly examines student work - what students are being asked to do on in their classrooms - across grades or courses in all content areas. Examining the texts and tasks students experience provides the necessary insight to gauge rigor and illuminate how the standards are actualized prompting the question whether or not approaches support the true spirit of college and career readiness. (adapted from The Education Trust – Equity in Motion Series)

Plamondon staff conveys high learning expectations for all students and develop structures that enable practice and perseverance for each individual student.

Plamondon staff communicates the necessity of attendance and engagement everyday in order to succeed.

Plamondon teaching staff aligns tasks with standards-based learning objectives that reflect the depth of knowledge expectations. Learning tasks are Integrative to draw on multiple standards.

Plamondon teachers use the TRU framework to ensure that students have access to an instructional environment that includes the five dimensions of a powerful classroom.

Instructional implementation and learning tasks are reflective of the key shifts in literacy.

Instructional implementation and learning tasks are reflective of the key shifts in math.

Plamondon teaching staff uses protocols (R&R Framework, DOK framework) to collectively reflect regularly on the level of cognitive demand asked of students across the school, particularly priority group students, to think strategically as speakers, listeners, readers, and writers.

Plamondon teachers analyze student work samples as part of professional learning to best support students' attainment of quality work and standards.

Score

2 **3**

Guide for Rigorous Student Tasks

- Begin with the belief that all students can learn. (see Culture for Learning)
 - Convey high learning expectations for all students and develop structures that enable practice and perseverance for each individual student.
 - Create an environment where students assume responsibility for high-quality work by persevering, initiating improvements, addressing critiques, making revisions, adding detail and/or helping peers.
 - Communicate the necessity of attendance and engagement everyday in order to succeed.
- Plan and assign tasks that are cognitively challenging for individual students and require students to provide evidence of their reasoning.
 - Align tasks with standards-based learning objectives that reflect the depth of knowledge expectations
 - Tasks are Integrative to draw on multiple standards.
 - Teach for Robust Understanding in Mathematics (TRU Math). Engage students with important mathematical ideas, not simply receiving knowledge, requiring students to engage in productive struggle.
- · Tasks reflect the key shifts in literacy.
 - Complexity: Tasks reward close reading of complex text; Focus on comprehension of academic language, not obscure vocabulary.
 - Evidence: Cite evidence from text and write to sources, not decontextualized prompts.
 - Knowledge (non-fiction): Tasks embed reading and writing across disciplines with a variety of literary and informational complex texts and tasks and demonstrate comprehension through speaking, listening.
- Tasks reflect the key shifts in mathematics.
 - Focus: Tasks reflect a curricular and instructional focus on the major work in (e.g. operational fluency and number sense in K-2).
 - Coherence: Multi-grade progressions stress key beginnings (e.g. ratios in 6th grade) and key end points (e.g. fluency with multiplication in 3rd);
 - Rigor: Problems require construction of mathematical reasoning and critiques of other possible solutions.
- Provide opportunities for students to create authentic work for real audiences (beyond the teacher) to motivate them to meet standards and engage in critique and revision.
- . Examine student work to identify and showcase the qualities of strategic thinking that are both rich in content and relevant for students.
 - Analyze models with students to build a vision of quality.
 - Use protocols to collectively reflect regularly on the level of cognitive demand asked of students across the school, particularly priority group students, to think strategically as speakers, listeners, readers, and writers.
 - Analyze student work samples as part of professional learning to best support students' attainment of quality work and standards.

Transitions, College & Career Access & Persistence:

The school creates pathways to success built on a vision in which all students leave secondary school with a clear plan for their initial postsecondary destination, whether in apprenticeship training, work, or college. All students have equal access to college preparatory curriculum to be successful. The school is characterized by structures for developing early postsecondary awareness and the knowledge and skills that lay the foundation for the academic rigor and social development necessary for college and career success. Students are equipped with the confidence in their ability to implement and adapt their plan throughout their lives as they and the world around them change. This vision sees students as the architects of their own lives.(adapted from Creating Pathways to Success, Ontario)

Score

1 2 3

Plamonodn staff monitors the progress of English learners after transition from services.

Provide students opportunities to discover personal talents and skills, identify career interests, and pursue coursework/activities necessary to reach personal, academic and career goals (i.e. Naviance).

Expose students to a range of career paths and the educational requirements of each to improve long-term planning and goal-setting.

Start the conversation about college in primary grades (ex. CCoL)

Make parents aware of academic opportunities and supports for their child.

Create opportunities for students to explore college and career knowledge, mindsets, and skills necessary for academic planning and goal setting.

Find opportunities to work with all students on academic and personal behaviors, including persistence, engagement, work habits/organization, communication/ collaboration, and self-regulation.

Staff uses Naviance to develop an Individual Learning Plan that tracks coursework, college and career assessments, goal setting, 6th-12th grade milestones completion that culminates in a concrete post-secondary plan.

Guide for Transitions, College & Career Access & Persistence

- TRANSITIONS Have structures and processes in place to ensure successful transitions (e.g. into school, grade to grade, school to school, school to post-secondary).
 - Mitigate the adverse effects experienced by some students in transition such as arriving part-way through the school year that can cause students to fall behind or become disengaged from school.
 - Monitor the progress of English learners after transition from services.
 - Provide programs and interventions that help students as they move from middle school through Freshmen year, including but not limited to: High School Investigation Days, CTE recruitment fairs, Freshmen Connection program (where budget allows), and a robust Freshmen Orientation program. Implement targeted holistic student supports the entire Freshmen year.
 - Provide sustained summer learning experiences to minimize learning loss and support key transition periods (e.g. summers before Kindergarten, HS, and college).
 - Use student data and best practices research to develop focused programs.
 - Expand access beyond students who are struggling academically.
 - Provide school counseling and postsecondary advising transition support and follow-up during "Summer Melt" and the first year of college.
- AWARENESS Expose students early to academic/professional worlds beyond K-12.
 - Provide students opportunities to discover personal talents and skills, identify career interests, and pursue coursework/activities necessary to reach
 personal, academic and career goals. Expose students to CTE Pathways around career options
 - Expose students to a range of career paths and the educational requirements of each to improve long-term planning and goal-setting.
 - Start the conversation about college in primary grades.
 - Make parents aware of academic opportunities and supports for their child.
- READINESS Ensure equitable access to college preparatory curriculum.
 - Provide access to 8th Grade Algebra to all eligible 8th grade students.
 - Provide access to early college and career coursework and credential opportunities while in HS (e.g. AP credit, Dual credit, industry credentials (CTE),
 Seal of Biliteracy)
 - Teach students to analyze their transcripts and test scores, as well as connect course selection, attendance, and grades to their continued success
 and access to postsecondary options, and adjust their actions and behavior to make progress toward graduation and their top postsecondary choice.
 Provide support and motivation to encourage B's or better and improving attendance.
 - Create opportunities for students to explore college and career knowledge, mindsets, and skills necessary for academic planning and goal setting.
 - Find opportunities to work with all students on academic and personal behaviors, including persistence, engagement, work habits/organization, communication/ collaboration, and self-regulation.
 - In Naviance, develop an Individual Learning Plan that tracks coursework, college and career assessments, goal setting, 6th-12th grade milestones completion that culminates in a concrete postsecondary plan.
 - Provide opportunities for Dual Credit/Dual Enrollment
- SUCCESS Provide direct assistance to all students and families through every stage of the college selection, application, and entry process (Transition to College (HS)) including, but not limited to academic planning/advising to assist with:
 - Selecting colleges with the best institutional graduation rates for their level of qualifications. (Students of all qualification levels are more likely to graduate from college if they attend a postsecondary institution with high graduation rates
 - Researching/comparing options including short and long-term financial outcomes, comparing college graduation rates, and other statistics to narrow down options.
 - Researching living wage options such as an apprenticeship or certification programs for students who wish to work after high school and/or want to delay college.
 - Applying to multiple colleges—generally three or more.
 - Navigating financial aid and capitalizing on grant and scholarship opportunities.
 - Equipping students and families with persistence strategies. (College Persistence Toolkit)
 - Help families learn about existing CTE career pathways, apprenticeships/pre-apprenticeship programs

Expectations for depth & breadth of Quality Teaching

3 of 3 complete

3

Instruction: Score

The teachers have finely honed instructional skills. They can shift from one approach to another as the situation demands by carefully monitoring the effect of their teaching on student learning. They seamlessly incorporate ideas and concepts from other parts of the curriculum into their explanations and activities. Their questions probe student thinking and serve to extend understanding. They promote the emergence of self-directed learners.

Teachers guide students to articulate the relevance of the objective(s) to learning.

Teachers anticipate possible student misunderstanding.

Enable students to develop a conceptual understanding of content while making connections to their interests, knowledge, and experience.

Build on students' language development and understanding of content.

Use vocabulary appropriately for students' ages and development. Students contribute to the correct use of academic vocabulary. Use a variety of low- and high-level, open-ended, and developmentally appropriate questions to challenge students cognitively, advance high level thinking and discourse, and promote metacognition.

Use techniques that enable students to engage each other in authentic discussions about content. And, enable students to formulate their own questions and respectfully challenge one another using viable arguments based on evidence.

Encourage student responsibility for ensuring all voices are heard in the discourse and that all students are listening and responding to questions and answers from their teacher and peers.

Require students to cite textual evidence to support/develop a claim.

Scaffold instruction to ensure all students, including diverse learners and English Learners, access complex texts and engage in complex tasks.

Provide targeted supports to individual students or groups of students based on their identified needs.

Provide instruction designed to develop language domains for English learners.

Monitor progress and check for understanding for individual students.

Change instructional practice based on analysis of current data.

Use universally designed assessments that allow for multiple pathways for students to demonstrate understanding of the objective(s).

Intervene in a timely and effective way to help students who are struggling.

When formative assessments show a need for intervention or enrichment, make effective impromptu adjustments that individualize instruction.

Use progress monitoring data to trace effectiveness of interventions and student response to intervention.

Create opportunities for students to have voice and choice in instructional tasks.

Guide for Instruction

- Plan a range of effective pedagogical approaches suitable to student learning of the content/skills taught and anticipate student misconceptions.
- Effectively communicate with students.
 - Guide students to articulate the relevance of the objective(s) to learning.
 - Anticipate possible student misunderstanding.
 - Enable students to develop a conceptual understanding of content while making connections to their interests, knowledge, and experience.
 - Enable students to contribute to extending the content by explaining concepts to their classmates.
 - Build on students' language development and understanding of content.
 - Use vocabulary appropriately for students' ages and development. Students contribute to the correct use of academic vocabulary.
- Use questioning and discussion as techniques to deepen student understanding and challenge.
 - Use a variety of low- and high-level, open-ended, and developmentally appropriate questions to challenge students cognitively, advance high level thinking and discourse, and promote metacognition.
 - Use techniques that enable students to engage each other in authentic discussions about content. And, enable students to formulate their own
 questions and respectfully challenge one another using viable arguments based on evidence.
 - Encourage student responsibility for ensuring all voices are heard in the discourse and that all students are listening and responding to questions and

answers from their teacher and peers.

• Require students to cite textual evidence to support/develop a claim.

. Engage students in learning.

- Scaffold instruction to ensure all students, including diverse learners and English Learners, access complex texts and engage in complex tasks.
- Provide targeted supports to individual students or groups of students based on their identified needs.
- Provide instruction designed to develop language domains for English learners.
- Monitor the effect of teaching on student learning and integrate formative assessment into instruction.
 - Monitor progress and check for understanding for individual students.
 - Change instructional practice based on analysis of current data.
 - Use universally designed assessments that allow for multiple pathways for students to demonstrate understanding of the objective(s.
 - Also see Balanced Assessment.
- Persist in adjusting instruction so individual student misunderstandings or advanced needs are successfully accommodated.
 - Intervene in a timely and effective way to help students who are struggling.
 - When formative assessments show a need for intervention or enrichment, make effective impromptu adjustments that individualize instruction.
 - Use progress monitoring data to trace effectiveness of interventions and student response to intervention.
- Foster student ownership. Create opportunities for students to have voice and choice in instructional tasks.

Balanced Assessment & Grading:

A balanced assessment system effectively measures the depth and breadth of student learning and monitors student progress towards college and career readiness. It also produces actionable data to inform planning for instruction, academic supports, and resource allocation. To meet these goals, a balanced assessment system must include multiple measures and be responsive to the needs of all students, including diverse learners and English learners.

Plamondon uses multiple measures to supplement district-centralized assessments with other formative assessments to provide a more comprehensive picture of student learning.

Plamondon uses screening, diagnostic, and progress monitoring assessment to correctly identify specific gaps and monitor improvement, especially for students receiving Tier 2 and 3 services, in addition to Tier 1 core instruction.

Teachers make assessments accessible to students, including diverse learners and English Learners through employing features of universal design and use of accommodations and, where needed, modifications.

Teachers provide accommodations in presentation (i.e. how assessment text and tasks are presented to students), response (i.e. how students provide their answers), and/or setting/timing (i.e. scheduling/location of assessment).

Teachers utilize assessments that reflect the key shifts in literacy and mathematics in teacher created or selected assessments. Staff has access to and analyze school-wide, teacher team, and classroom assessment data to determine instructional effectiveness and subsequent learning needs

Guide for Balanced Assessment & Grading

- Use multiple measures (i.e. a range of assessment types and at multiple points in time) to supplement district-centralized assessments with other formative assessments to provide a more comprehensive picture of student learning.
- Use screening, diagnostic, and progress monitoring assessment to correctly identify specific gaps and monitor improvement, especially for students receiving Tier 2 and 3 services, in addition to Tier 1 core instruction. (also see MTSS and Instruction)
- Make assessments accessible to students, including diverse learners and English Learners through employing features of universal design and use of accommodations and, where needed, modifications.
 - Provide accommodations in presentation (i.e. how assessment text and tasks are presented to students), response (i.e. how students provide their answers), and/or setting/timing (i.e. scheduling/location of assessment).
- Utilize assessments that reflect the key shifts in literacy and mathematics in teacher created or selected assessments. (see Rigorous Student

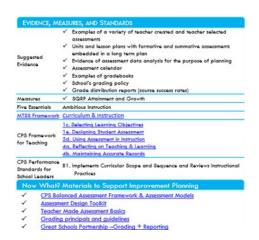

Score

1 2 3 4

Tasks'

- Utilize assessments that measure the development of academic language for English learners.
- Have access to and analyze school-wide, teacher team, and classroom assessment data to determine instructional effectiveness and subsequent learning needs
- Improve and promote assessment literacy.
 - Work together on building common assessments within a department, course, or grade level team.
 - Invest resources in helping teachers evaluate and improve the quality of formative assessments. For example, use the Assessment Design Toolkit.
 - Use common protocols and calibrate on scoring and grading in teacher teams.
 - Analyze quality and alignment of assessments and tasks to ensure they meet the expectations of the standards and embed various levels of complexity.
- Have a grading system that clearly, accurately, consistently, and fairly communicates learning progress and achievement to students, families, postsecondary institutions, and prospective employers.
 - Ensure that students, families, teachers, counselors, advisors, and support specialists have the detailed information they need to make important decisions about a student's education.
 - Measure, report, and document student progress and proficiency:
 - Against a set of clearly defined cross-curricular and content-area standards and learning objectives collaboratively developed with staff.
 - Separately from work habits, character traits, and behaviors, so that educators, counselors, advisors, and support specialists can accurately
 determine the difference between learning needs and behavioral or work-habit needs. academic mindsets and behaviors (CCSR).
 - Ensure consistency and fairness in the assessment of learning, and assignment of scores and proficiency levels against the same learning standards, across students, teachers, assessments, learning experiences, content areas, and time.
 - Ensure grades are not used as a form of punishment, control, or compliance.

Evidence, Measures, and Standards

Multi-Tiered System of Supports:

The school is characterized by full implementation a system of academic and social emotional (SEL) supports for all students. Every day, in all classrooms, all teachers provide: Universal instruction in the core curriculum - academic & SEL (Tier 1) to all students; additional targeted academic and SEL supports (Tier 2) where needed; and deep and intense supports (Tier 3) based on individual and small group needs. The school also monitors On Track data (grades/GPA and attendance (ES), and course credits (HS)) to provide interventions/supports for students at risk for failure and/or truancy.

Small Guided Group instruction provided within instructional blocks

At least 40 minutes of Math MTSS are built into the master scheduled in Grades 3-8

Teachers record and track bi-weekly data using school-wide google doc

All classroom teachers use Second Step curriculum resource to address SEL needs of individual students, and student groups.

Score

Guide for Multi-Tiered System of Supports

- TIER 1 Persist in adjusting instruction so individual student misunderstandings or advanced needs are successfully accommodated. (3e)
 - Intervene in a timely and effective way to help students who are struggling.
 - When formative assessments show a need for intervention or enrichment, teachers make effective impromptu adjustments that individualize instruction for students.
 - Use progress monitoring data to trace effectiveness of interventions and student response to intervention.
- TIER 1 Customize the learning environment, pace, and approach of teaching and curriculum in order to meet each learners' individual needs ('Personalized Learning').
 - Empower student to advance their learning.
 - Use up-to-date individual student profiles that include strengths, needs, motivations, and outlines an individualized path to reach his/her goals.
 - Classrooms are student-centered with student agency.
 - Each student has the opportunity to advance upon demonstrating mastery.

- ON TRACK Provide universal supports to prevent failing and absenteeism and targeted interventions for grades below "C" or chronic absenteeism. (On Track)
 - Identify students off track due to low attendance and poor course performance and provide intensive supports to address root causes of why students
 have low grades and poor attendance.
- TIER 2 & 3 Collaborate and work as teams of teachers and Related Service Providers (RSP) to plan and monitor targeted student support
 with varied instructional strategies and SEL support of varying degrees of intensity for all students.
 - Monitor students requiring and receiving targeted and intensive instruction/interventions.
 - Use the Problem Solving Process to plan Tier 2 and 3 instruction/interventions.
 - Determine appropriate interventions for students or groups of students not making adequate progress.
 - Use progress monitoring data to track effectiveness of interventions and student response to intervention.
- TIER 2 & 3 Implement Personal Learning Plans (PLP) goals and intervention strategies for students requiring school year supports as described in Elementary School Promotion Policy (Board Report 09-1028-PO2).
 - Ensure implementation of these plans, review subsequent 5 week data, determine the effectiveness of the strategies and adjust plans as needed.
- Communicate to parents/guardians the additional supports and/or interventions provided for their child to better align school and home environments.

Expectations for Quality & Character of School Life

6 of 6 complete

Culture for Learning:

A culture for learning is characterized by a school atmosphere that reflects the educational importance of the work undertaken by both students and staff. It describes the norms that govern the interactions among individuals about the mindsets (e.g. ability/confidence to grow with effort), academic behaviors (e.g. attending classes, completing assignments), the learning strategies and skills, the value of perseverance despite challenges and obstacles, and the general tone of the school. The classroom is characterized by high cognitive energy, by a sense that what is happening there is important, and that it is essential to "get it right." There are high expectations for all students. The classroom is a place where teachers and students value learning and hard work, and students take visible delight in accomplishing their work. Staff believe they can make a difference, that their hard work is the fundamental cause of student achievement, and are invested in student outcomes.

Score

1 2 3 4

Plamondon staff encourages parents to send their students to school on time, daily. The attendance goal is communicated weekly through school communications sent home with students. Incentives are communicated to students to encourage daily attendance (ex. attendance jam, movie, pizza party, skating, spa treatment time, gaming time.

Plamondon staff ensures that students free share academic misunderstandings and struggles without penalty or embarrassment. Plamondon staff communicates that mistakes allow for meta-cognition, as students are required to justify responses and participate in peer to peer conversation that push individual and collective thinking.

Plamondon staff provide feedback to students in the form of: a praise, a push, and a correction verbally and in writing (i.e. conferring and written feedback.

SQRP SY17-18 NWEA Growth for Reading 97th%ile from the 30th %ile at EOY SY16-17

Students meeting or exceeding national average growth norms 65.3% from 43.5% at EOY SY16-17

Teacher provide individual, small group, and whole group instruction to provide remediation in students'areas of academic deficit Teachers use technology based programs and teacher created materials to progress monitor students' areas of academic deficit Teachers use student academic behaviors to determine whether or not students are academically prepared to move forward (and to what degree) in the learning of a concept, skill, or strategy

Guide for Culture for Learning

- · Create a culture that reflects a shared belief in the importance of learning and hard work.
 - Use strategies to reinforce and cultivate student curiosity.
 - Make learning goals relevant to students, and inspire students to stay committed to their learning goals.
 - Consistently communicate the expectation that all students can achieve at high levels.
 - Utilize strategies to encourage daily and timely attendance.
- Convey high learning expectations for all students and develop structures that enable practice and perseverance for each individual student.
 - Clearly display school-wide expectations for academic and personal success throughout the building.
 - Set high expectations according to grade-appropriate learning objectives.
 - Differentiate expectations so all students stretch to not only meet but exceed personal learning goals.
 - Recognize high levels of student achievement. All students receive recognition.
 - Encourage student resilience and hard work.
 - Ensure students feel safe to share misunderstandings and struggles.
- Encourage students to take ownership and pride in their work where students assume responsibility for high-quality work by persevering, initiating improvements, addressing critiques, making revisions, adding detail and/or helping peers.
 - Students self-assess (e.g. checking own work before giving to teacher) to develop a reflective habit of mind essential for improvement. This ensures students take responsibility for their own learning, focuses attention on criteria for success, and increases effort and persistence.
- Provide students frequent, informative feedback.
 - Tell/show students what they have done well (through positive reinforcement) and what they need to do to improve, including clarifying criteria and goals.

Score

1 2 3

- Give feedback on the task, the processes used to complete the task, and on the student's ability to self-regulate their own learning.
- Develop academic mindsets and behaviors.
 - Teach a growth mindset that over time with effort and practice, students can learn and succeed.
 - Encourage students' sense of belonging to the school and classroom community (see Relational Trust).
 - Employ strategies including ongoing monitoring and support of students' academic behaviors.
 - Praise effort and process. For example, "Good job, that must have taken a lot of effort" instead of, "Good job. You must be really smart."

Relational Trust:

The school is characterized by high levels of relational trust between all school participants - the "glue" or the essential element that coordinates and supports the processes essential to effective school improvement. Interactions, both between the teacher and students and among students, are highly respectful, reflecting genuine warmth and caring. Students contribute to high levels of civility. Interactions are sensitive to students as individuals, appropriate to the ages and development of individual students, and to the context of the class. The net result of interactions is that of academic and personal connections among students and adults.

Plamondon staff provides check-in supports, mentoring and counseling/social work supports for students for students with higher levels of need.

Teaching staff are coached to speak to students about situations, that may be encountered, in a calm way and with a respectful tone. Students are encouraged to seek out the adult or adults that they feel most comfortable with sharing and working through issues.

As evidenced in the Supportive Environment section from the 2017 Five Essentials Survey, teacher to teacher, teacher to student, student to student interaction are highly respectful, reflecting genuine warmth and caring.

Plamondon staff offers verbal positive praise to student for positive academic and socio-emotional behaviors. Some staff members offer incentives for positive academic and behavioral participation.

Plamondon staff positive re-frames situations as a means of correction for students.

Plamondon students are provided an opportunity to positively work through conflicts that may arise with a staff member as mediator or independent or a staff mediator.

Plamondon employs Second Step across grades K-8, and provides additional SEL supports as needed based on student interactions. (ex. mini-workshop on race as a result of students calling adults racist).

Plamondon staff engages in root cause analysis to determine if identified student academic or socio-emotional behavior is a result of cultural norms and are reminded to cognizant of what is in our internal locus of control and how our own biases can impact interactions with students and families, and how our own biases cam interfere with creating interventions that support students and families.

Plamondon students and staff are encouraged to embrace individual and collective differences (i.e. language, cultural beliefs, race, etc.)

Plamondon staff shares in working together for school improvement (i.e. ILT, MTSS team, school culture and climate committee). All teaching staff have common collaboration time (ex. K-2, 3-8).

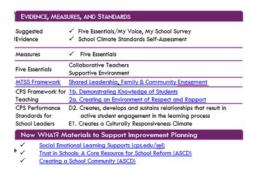

Plamondon staff members are afforded the opportunity to lead professional development and provide coaching supports to other staff members

Plamondon exercise a 24 hour rule. If staff members are emotionally harmed by another staff member, the staff member (that's been harmed) has the option of going directly to his or her colleague to seek resolution or requesting that administration (or another colleague) as as mediator. Administration has an open door policy - staff can see administration, whenever needed, to discuss concerns/conflicts and ways to seek resolution.

Guide for Relational Trust

- Develop trusting relationships with students so each student has at least one trusted adult in the school.
 - Adults are responsible for occasional check-ins or serve as mentors.
- · Adult-student interactions are positive, caring, and respectful.
 - Ensure a greater proportion of interactions are positive (as opposed to corrective) between staff and student consistently school-wide.
- Student interactions are mutually supportive and respectful, with strong norms for positive behavior.
 - Create opportunities for students to build positive relationships with peers.
 - Create opportunities for older students to mentor younger students.
- Understand diversity and its impact on student learning; recognize and integrate the learning opportunities that come from a diverse community.
 - Create opportunities for students to learn about the community they serve (e.g. culture and neighborhoods).
 - Have mutual respect for individual differences (e.g. gender, race, culture, etc.) at all levels of the school—student-student; adult-student; adult-adult and overall norms for tolerance.
 - Provide training to engage diverse families and communities.
- Support and respect one another, personally and professionally (Teacher-Teacher Trust, Teacher-Principal Trust)
 - Respect other teachers who take the lead in school improvement efforts.
 - Respect colleagues who are experts at their craft.
 - Exchanges are marked by genuinely listening to what each person has to say and by taking these views into account in subsequent actions. Even when people disagree, individuals can still feel valued if others respect their opinions.
 - Personal regard springs from a collective willingness to extend beyond the formal requirements of a job definition or a union contract (e.g. openness
 or reaching out to others).
- Utilize relationships as a means of deterring truant behavior brought on by unspoken hurdles a child may be facing.

Evidence, Measures, and Standards

Student Voice, Engagement, & Civic Life:

Students are interested and engaged in learning, invested in their school, and contributing to their community. The school provides early and ongoing exposure to a wide range of extracurricular activities and rigorous courses and programming.

Score 1 2 3

Students in grades K-8 engage in instruction and learning tasks that explore current and controversial local city and government issues/topics (Time for Kids, MSN News, CNN News, Peaceful protests, News of the day, Reparations Won, Constitution)

Guide for Student Voice, Engagement, & Civic Life

Study politics

- Teachers teach about the structure and function of government as well as local, national, and international political structures and power dynamics.
- Teachers invite students to reflect on their own role in the political landscape, engage in analyses of power, and identify strategies they can use to utilize
 civic power as an individual and as a member of a community.

• Become informed voters and participants in the electoral process

- Students learn about the history and structures of the local and national voting process and ballot issues and candidates.
- The school supports non-partisan engagement in all parts of the electoral process, including voter education, voter mobilization and registration.
- There are a variety of school/classroom activities or simulations that support student voter preparation and participation in the electoral process.

Engage in discussions about current and controversial issues.

- Students prepare for discussions, learn about issues that matter to them through deliberation, evaluate evidence from a range of sources, consider competing views, develop arguments, and deepen their viewpoints.
- With teachers' support, students learn how to engage in and lead respectful and productive democratic discussions where everyone expresses their viewpoints, shares evidence, and listens to one another.
- Teachers teach how to find different points of view online and instruct how to engage in respectful, informed, and productive online dialogue.

Explore their identities and beliefs

- Teachers design learning experiences that enable students to explore how their identities influence their lived experiences and their perspectives.
- Students are encouraged to learn about and understand the perspectives of those who have different identities and beliefs.
- School staff reflect on their own identities and consider how that impacts their role and support of teaching and learning with youth.

Exercise student voice

- Students can participate on multiple decision/policy making bodies and their perspectives are regularly included in decisions at their school.
- Student Voice Committee represents the diversity of the school, addresses school-based issues, and regularly gathers input from their peers to inform and impact school policy and decisions.
- Teachers respond to and integrate students' lived experiences, perspectives, and interests in class.
- Authentically interact with civics leaders
- Students learn about community, city, state, and national civic leaders and their roles in civil society.
- School staff support engagement with civic leaders by inviting them into classrooms/the school and identifying face-to-face or online avenues for students to share their feedback and perspectives with civic leaders.

Engage with their community

Students complete at least 2 service learning projects before graduation in which they gain exposure to civic organizations, leaders, and careers.
 Students gain tools to work cooperatively in partnership with peers, community members, and organizations to advance a specific cause

• Take informed action where they work together to propose and advocate for solutions.

- Students research and analyze issues that matter to them, identify root causes, develop a theory of action, determine relevant audiences, outline specific goals, implement a response, and reflect before, during and after experiences.
- Students use social and digital platforms to raise awareness about issues, produce and circulate multimedia content, and mobilize involvement.

Experience a Schoolwide civics culture

- School leaders articulate a commitment to and vision for the importance of civic learning; students are civic leaders in the school.
- Schools integrate civic learning across the curriculum, including projects that address relevant issues in their schools and communities.
- School staff have professional development, collaboration time, and curriculum resources to infuse civic learning across disciplines.
- Systems and structures exist where students are invited to participate in shaping school's policies, goals, instruction, and climate.

Safety & Order:

The school is characterized by high levels of safety and order. Students feel physically and emotionally safe from harm, and adults work to actively maintain a safe, orderly school environment.

1 2 3

Score

Teachers and staff monitor students across the school environment. There are school wide expectations for behavior in the hallways and classrooms.

As evidenced in the Supportive Environment section from the 2017 Five Essentials Survey:

over 50% of students reported feeling safe outside/around school,

87% reported feelings mostly safe/very safe traveling between home and school,

94% reported feelings mostly safe/very safe in the school bathrooms,

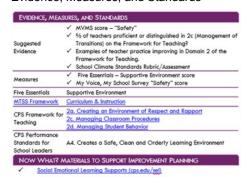

94% reported feelings mostly safe/very safe in the school hallways,

and 100% reported feelings mostly safe/very safe in their classrooms.

Guide for Safety & Order

- Ensure students and adults feel physically, socially, intellectually, and emotionally safe throughout the school.
- Provide clear procedures for reporting and responding to safety concerns.
- · Manage efficient and orderly transitions between activities.
 - Manage classroom routines and procedures to maximize instructional time.
 - Orchestrate the environment so students contribute to the management of classroom routines (e.g. transitions) without disruption of learning).
 - Arrival, dismissal, and other school-wide transitions are safe, efficient, and orderly.
- Provide a framework for positive behavior throughout the school based on shared values and expectations.
 - Have shared expectations for positive behavior. (See Restorative Approaches to Discipline)
- Teach, model, and reinforce (by all staff members) clear behavior expectations for all areas of the school.
 - All adults use active supervision (move, scan, and interact) in all settings.
- Have a voice and take informed action.
 - Students are included in key conversations about their learning experience and work with the principal and staff to identify issues and implement solutions. (e.g. student voice committee).
 - Students initiate and lead some school improvement initiatives.
 - Students participate in democratic decision-making at the school level.
 - Students identify and research issues of relevance and work together to propose/advocate for solutions.
- Emphasize proactive, instructive, and restorative approaches to student behavior and minimize punitive consequences through policies and procedures. (See Restorative Approaches to Discipline)
 - Adults correct misbehavior in ways that reinforce established expectations and cause minimal disruption to learning.
- Clarify criteria for office referrals versus classroom managed behavior.

Evidence, Measures, and Standards

Restorative Approaches to Discipline:

The school is characterized by having and implementing policies and procedures that emphasize proactive, instructive, and restorative approaches minimizing punitive consequences. Discipline practices primarily focus on shaping behavior as opposed to punishing behavior. The school only uses out-of-school suspension as a last resort and utilizes a systems-change approach to bring about a more restorative culture. The school is also characterized by strong and consistent school and classroom climates. The school reinforces positive behaviors and responds to misbehaviors in calm, respectful, and thoughtful ways, teaching students important social and emotional skills that enable them to get along with others, make responsible decisions, and focus on learning. When misbehavior occurs, the school seeks to understand the underlying reasons (root cause) in order to design a response that effectively changes student behavior using a menu of instructive, corrective and restorative responses.

Teachers and staff have positive relationships with students which minimizes negative behavior and the need for discipline. Plamondon has a consistent school-wide disincline policy (student code of conduct)

Score

1 2 **3** 4

Guide for Restorative Approaches to Discipline

- PROACTIVE Reinforce positive student behavior with clear expectations, routines, and procedures.
 - A team meets regularly to organize systems that support a restorative environment.
 - Develop, reinforce, and model shared agreements and clear, positively stated expectations.
 - Well-managed routines and transitions maximize instructional time.
 - Engage families as partners.
 - Contact families frequently to inform them of positive student behavior and progress.
 - Vary acknowledgements and provide both short and long term opportunities for reinforcement for all students.
- INSTRUCTIVE Integrate universal SEL skills instruction and core content.
 - Intentionally teach competencies outlined in SEL Standards. Use discipline as opportunity to teach these skills.
 - Use a Multi-tiered System of Supports (MTSS) for social, emotional, and behavioral growth.
 - Use data to determine which behaviors should be retaught or more heavily reinforced.
 - Explicitly teach expected behavior and positively reinforce consistently school-wide.
 - Avoid power struggles with students by offering choices. Redirect students privately and respectfully.
- RESTORATIVE Employ a discipline system that guides students to take ownership, resolve conflict, and learn from their actions.
 - Support all staff to engage in restorative conversations and respond to behavior incidents in ways that de-escalate conflict, reteach expectations, build social & emotional skills, repair relationships, and cause minimal disruption to learning.
 - Support staff in understanding the impact of trauma on student behaviors and using trauma-sensitive approaches to discipline.
 - Identify clear disciplinary procedures for classroom-managed behaviors and office-managed behaviors. Develop a continuum of interventions and logical consequences that address the root cause of behavior and align to MTSS processes.
 - Ensure discipline systems minimize the use of punitive responses, including removing students from the classroom or school community.
 - Respond equitably to students in all subgroups. Implement processes that address and meet the needs of students who are impacted by behavior
 incidents.
 - Designate an administrator, such as a dean or restorative practices coordinator, responsible for leading centrally-managed response to behaviors
 using consistent, restorative processes.
 - Provide opportunities for students to take responsibility for repairing harm caused by their actions, generate solutions, and resolve conflicts with peers
 or staff.

Evidence, Measures, and Standards

Parent and Family Partnership:

All schools have authentic partnerships with parents or family members that lead to a sense of shared responsibility for the academic, physical, and social emotional development of their students. Through meaningful consultation with parents, these partnerships include creating an intentional process to foster and sustain school-wide procedures, programs, and activities which involve and empower parents or family members and are responsive to student and family's needs. Schools provide a variety of parent volunteer opportunities (both in and out of school) and leadership opportunities (ie - PACs, BACs and PLNs), which support school operations, instructional programs and community partnerships. Research shows that when families, schools and communities partner in promoting learning and healthy development for all students schools thrive and student outcomes increase. The development and implementation of effective outreach and communication strategies will be inclusive of all families and school staff, creating a two-way feedback loop process which will lead to an increase in the home-school connection to identify, problem-solve and design actions which target instructional and student programs.

Plamondon has PAC, BAC, LSC and ILT meetings. Our EL teacher hosts classes for parents. Plamondon has partnership with Mt. Sinai that provides parent workshops. Regular communications in both English and Spanish are sent home with students. In previous years Plamondon hosted math/reading nights.

Guide for Parent and Family Partnership

- $\qquad \qquad \bullet \quad \text{Establish a non-threatening, welcoming environment that is warm, inviting, and helpful.}$
- Provide frequent, high quality, well publicized opportunities for families and community to participate in authentic and engaging activities in the school community (e.g. student performances/ exhibitions, literacy or math events).
- Provide multiple opportunities for parents to ask questions, raise concerns, and give feedback.
 - Respond to families' concerns and requests for information professionally and in a timely manner, providing resources and solutions to address the

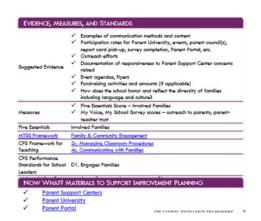

Score

2 **3** 4

concerns

- Solicit the support and engagement of families as partners in the instructional program (e.g. volunteering, working at home with their child, involvement in class and school projects in and out of school, and parent workshops).
 - Host events for parents to share with other parents how home and school complement each other.
 - Share best practices around learning and development with parents to support students at home.
 - Inform parents of grade level standards and expectations and grading policies with a clear description of what meeting the standard looks like.
 - Inform parents of attendance expectations and the impact of attendance on a student's trajectory.
 - Assist parents to volunteer in the school and/or participate on teams/committees.
 - Promote the use of Parent Portal and Parent University to connect and engage parents with school.
- Frequently communicate with families about class and individual activities and individual student's progress.
 - Regularly inform parents of their child's progress across all relevant measures: attendance, discipline, academics, social-emotional learning, and health and wellness.
 - Send regular, positive, personalized communication from a staff member.
 - Use a variety of consistent communication methods (e.g. calls, text, newsletter, website, face to face) sensitive to cultural norms and needs.
- · Conduct intensive outreach to families in need of specialized support through home visits and collaboration with social services agencies.
 - School responses to student excessive absences and/or tardiness includes outreach to families.
- Provide proactive communication (e.g. parent handbook and resources).
- Partner equitably with parents speaking languages other than English.
 - Information is provided to parents in their native language.
 - Parent meetings scheduled with interpreters present to facilitate participation.

Understanding by Design (UbD) and Universal Design for Learning (UDL) -professional development on how to analyze

data to inform instructional practices

individual students needs
-progress monitoring with fidelity
-assessments that are accessible to all
students

-teachers increased ability to analyze and use data to inform instructional practices -increased student ability to apply skills/strategies learned across domains and in real world predictable situations and real world unpredictable situations.

Assessment data analysis	Administration, ILT, Teaching Staff	Aug 27, 2018 to Jun 18, 2019	Not started

Strategy 2

If we do... ... then we see... ... which leads to...

professional development for teachers on MTSS universal expectations and progress monitoring

- -clearly defined tearing criteria (academic and socio-emotional)
- -a constructed menu of interventions academic and socio-emotional)
- -use of the problem solving process
- -progress monitoring data
- -teacher:student data discussions
- -increased teacher understanding of MTSS -increased teacher understanding and ability to make tiering decisions based on clearly defined criteria
- -teacher ability to progress monitor with fidelity -teacher ability to analyze data to inform instructional practices
- -increased student accountability of action steps to engage in and improve their own learning

Jun 20, 2019 and EOY to reflect on MTSS fidelity of MTSS Team Implementation and to drive changes in the system's implementation Jun 20, 2018 to School tracks growth of ALL students, Administration, Not started Jun 20, 2019 specifically students receiving Tier 2 and Tier 3 MTSS Team supports based on district-wide available data to Teaching Staff accurately assess student achievement results and school practices (NWEA, formative and interim assessments)

Strategy 3

If we do...

professional development on how to support all students to develop civic competencies, identities, and commitments by providing high quality opportunities for student voice, civic engagement, and participation in civic life at Plamondon and in the community

...then we see...

-consistent opportunities for students t:o study politics, become informed about voting and the electoral process, engage in discussions about current controversial issues, explore their identities and beliefs, exercise student voice, authentically interact with civic leaders, engage with their community, take informed action where they work together to propose and advocate for solutions, and experience school-wide civics culture.

...which leads to...

-teachers intentionally teaching about the structure and function of government as well as local, national, and international political structures and power dynamics.
-teachers inviting students to reflect on their own role in the political landscape, engage in analysis of power, and identify strategies they can use to exercise civic power as an individual and member of a community.
-students learning about the history and structures of the local and national voting

process and ballot issues and candidates.
-teacher creation and employment of a variety
of school/classroom activities or simulations
that support student voter preparation and
participation in the electoral process.

 students learn about issues that matter to them through deliberation, evaluate evidence from a range of sources, consider competing views, develop arguments, and deepen their viewpoints.

- -learn how to engage in and lead respectful and productive democratic discussions.
- -Teachers design learning experiences that enable students to explore how their identities influence their lived experiences and their perspectives.
- -Students are encouraged to learn about and understand the perspectives of those who have different identities and beliefs.
- -Students can participate in multiple decision/policy making bodies and their perspectives are regularly included in decisions at their school.
- -Student Voice Committee that represents the diversity of the school, addresses school-based issues, and regularly gathers input from their peers to inform and impact school policy and decisions.
- -Teachers respond to and integrate students' lived experiences, perspectives, and interests in class.
- -Students learn about community, city, state, and national civic leaders and their roles in civil society.
- -students interacting and communicating with civic leaders.
- -Students complete at least 2 service learning projects before graduation in which they gain exposure to civic organizations, leaders, and careers.
- -Students ability to research and analyze issues that matter to them; identify root causes; develop a theory of action; determine relevant audiences; outline specific goals; implement a response; and reflect before, during, and after experiences.
- -students ability to use social and digital platforms to raise awareness about issues, produce and circulate multimedia content, and mobilize involvement.

Fund Compliance

Supplemental General State Aid(SGSA)

Next steps

My school receives SGSA funds

By checking the above box, the school is verifying that the attendance center complies with the statement regarding the use of SGSA funds:

- 1. The attendance center allocation is correctly based on the number of students eligible to receive free and reduced lunch and breakfast.
- 2. The attendance center has an approced plan, developed in consultation with teachers, administrators, and other appropriate personnel, and parents of thes tudents attending the attendance center.
- 3. The attendance center's plan is approved by the LSC and CPS.
- 4. SGSA funded activities fall within the allowable program categories: early childhood education, reduced class size, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular programs as determined by the illinois state board of education.
- 5. SGSA Funds supplement and do not suppland non-categorical and other categorical funds allocated to the attendance center.
- 6. SGSA funds are supporting only those activities specified in the school's approved plan/amendment.
- 7. SGSA funds are not used for capital expenditures. 8. SGSA funds are not used for any political or lobbying activities by the attendance center.

ESSA Program

ESSA Schoolwide Program

(Not available to schools receiving NCLB funds for the first time) [Title 1/SW].

The school annually reviews the schoolwide plan/program. The schoolwide program plan is available to CPS, parents, and the public, and the information in the plan is in an understandable and uniform format, and to the extent practicable in a language the parents can understand.

ESSA Targeted Assistance Program Title I funded staff participate in the school's general professional development and school planning activities. Title I

funded staff assume limited duties that are assigned to similar personnel including duties beyond the classroom, or that do not benefit Title I students, as long as the amount of time spent on such duties is the same proportion of the total work time with respect to similar staff.

Non-title school that does not receive any Title funds

Parent Involvement in Targeted Assistance and Schoolwide Programs

I verify that the statement below is correct

Every Student Succeeds Act (ESSA), the reauthorization of the Elementary and Secondary Act of 1965 continues a legislative commitment to parental involvement. Central features of prior reauthorizations, such as school-parent compacts, parent involvement policies, and the parent involvement funding formula remain unaltered. However, the ESSA reauthorization represents a notable shift in the role of parental involvement in the schools. It includes new provisions increasing parental notification requirements, parental selection of educational options, and parental involvement in governance. It envisions parents as informed and empowered decision makers in their children's education.

Parent and Family Plan

Parent and Family Engagement Policy

Complete

Schools must involve parents and family in the joint development and periodic review and revision of the ESSA, Title I school parental and family engagement plan and policy, and in the process of school review and improvement. Please describe how this will be accomplished.

Parents will be involved in the development and review of the NCLB, Title I school parents involvement plan through participation in LSC, NCLB, BAC and stakeholder meetings in which opportunities to increase parent involvement, improve school climate and culture and foster a home-school partnership will be discussed and a plan developed. Invitation to meeting will go home with each student and reminder robo-calls made prior to meetings.

SubParents estarán involucrados en el desarrollo y revisión del plan de participación de padres de la escuela NCLB I, Título través de la participación en las reuniones del LSC, NCLB, BAC y de las partes interesadas en la que las oportunidades para aumentar la participación de los padres, mejorar el clima y la cultura escolar y fomentar una asociación hogar-escuela se discutirá y un plan desarrollado. Invitación a la reunión se irá a casa con cada estudiante y recordatorios robo- llamadas realizadas antes de las reuniones.

The school will hold an annual meeting at a time convenient to parents and families during the first month of school to inform them of the school's participation in ESSA, Title I programs and to explain the Title I requirements and their right to be involved in the Title I programs. The school will also offer a number of additional parental and family engagement meetings, including school PAC meetings, at different times and will invite all parents and key family members of children participating in the ESSA, Title I program to these meetings, and encourage them to attend. Please describe how this will be accomplished. Please list the projected date of your Title I Annual Meeting and your Title I PAC Organizational Meeting

Invitation to meeting will go home with each student and reminder robo-calls made prior to meetings. The annual meeting will be held in early September at 9:00 a.m. and 5:00 p.m. Other meetings to involve parents/stakeholder will occur throughout the 2018-2019 school year.

Invitación a la reunión se irá a casa con cada estudiante y recordatorios robo- llamadas realizadas antes de las reuniones. La reunión anual se llevará a cabo a principios de septiembre. Otras reuniones para involucrar a los padres / los interesados tendrán lugar durante todo el año escolar 2018-2019.

At the request of parents and family members, schools will provide opportunities for regular meetings, including the School Parent Advisory Council meetings, for parents and family members to formulate suggestions and to participate, as appropriate, in decisions about the education of their children. Please describe how the school will immediately respond to any such suggestions.

Plamondon welcomes opportunities to meet/interact with parents. When parents request meetings, either individually or as a group, every allowance will be made to schedule meetings: before school, during school hours (when possible), and after school hours to insure that parent/stakeholder voice is heard.

Plamondon da la bienvenida a la oportunidad de conocer / interactuar con los padres. Cuando los padres solicitan reuniones, ya sea individualmente o en grupo, se hará todo posible para programar reuniones: antes de la escuela, durante el horario escolar (cuando sea posible), y después de las horas de clase para asegurar que se escuche la voz de los padres / los interesados.

Schools will provide parents a report of their child's performance on the State assessment in at least math, language arts and reading. Please describe how this will be accomplished.

Parents are provided with notification of their child's progress, across content areas, by way of written communication (i.e. report cards, progress letters, individual teacher correspondence and by GradeBook notification).
