Mission Statement as of May 2013

Our mission is to ensure that Crane students achieve mastery of skills necessary for success, be empowered to compete in a global economy and enhance their knowledge through an inquiry-based curriculum.

School Priorities as of May 2013

Description	Rationale
Develop a comprehensive plan to implement Common Core State Standards.	The proper implementation of the CCSS will positively impact student achievement by increasing the number of students who meet and exceed on EPAS assessments and decrease the achievement gap.
Develop a comprehensive plan to implement an effective Full School Day that will increase student reading comprehension and prepare seniors for post-secondary success.	The proper implementation of the Full School Day will provide more instructional time needed to improve student achievement.
Develop a systematic approach of assessing and coaching teachers to improve teaching and learning and ultimately student achievement. (Recognizing Educators Advancing CHicago (R.E.A.C.H.)	The proper implementation of the new teacher evaluation system will improve teacher instruction, accountability and student achievement.
Develop a method of assessing the Social Emotional needs of our students to provide the appropriate resources and supports.	The proper implementation of an SEL program will provide more resources and wholistic support for students.
