Mission Statement as of May 2013

Our mission is to empower all our students with the academic knowledge, character traits and the courage to act on the core values necessary to excel and be productive citizens in our global society by "striving to discover not how the child came to be what he is: but how he can become what he is not yet" A.N. Leontiev

School Priorities as of May 2013

Description	Rationale
Teachers will provide effective differentiated small group instruction.	Based on school learning walks #2 and #3 and the percent of students in the below quartile on mandated tests, we noted that small group instruction will address the needs of students. Groups will be determined by the following: *Strategy lessons - teacher classroom assessments according to CCSS *Guided Reading lessons - student's F&P/Lexile/TRC levels *Use of DIBELS/IDEL categories of intensive, strategic, benchmark *Analysis of mandated assessments according to below, meets, and exceeds During group instruction, the teacher will focus on the needs of the students based on the above assessments and will use appropriate materials and strategies.
Teachers will increase the rigor in both literature and informational text presented to students by designing units of study and performance assessments that are aligned to the CCSS.	Based on learning walk observation data and school wide data, teachers need to move beyond DOK levels 1 and 2 to increase rigor. By increasing the rigor of the texts used and the student tasks, the level of student thinking will increase.
Professional development, based on our priorities, needs to be mandated, ongoing, and monitored in order to improve student outcomes.	Professional development based on our priorities and to improve student outcomes will include development of small group instruction, backward mapping, and the use of rigor in tasks and texts used.
