Mission Statement as of May 2013

It is the mission of Kelly to be the high school of choice in our community, providing all students with a personalized, rigorous and engaging curriculum that emphasizes literacy, character development and college readiness fostering productivity within society as well as individual fulfillment.

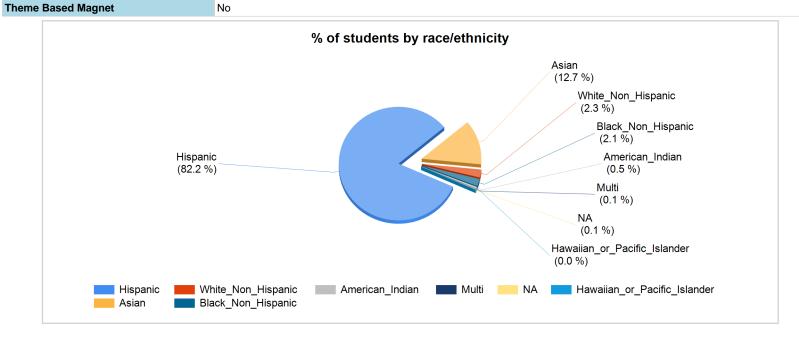

School Priorities as of May 2013

| Description | Rationale |
|--|--|
| Provide rigorous, data driven instruction that aligns Common Core Standards and utilizes enhanced time resources afforded by the Full School Day to increase student achievement growth as measured by EPAS growth and performance on PSAE and ACT, leading to increasing numbers of students eligible for college upon graduation | In order to increase current levels of student performance, with no more than 33% of student meeting expected levels in any area on the PSAE and only 39.3% of students making expected gains in reading in EPAS assessments, a rigorous curriculum that emphasized literacy will enable continued improvement in student achievement and increase postsecondary educational and career opportunities for all students. |
| Continue to implement and refine research based instructional interventions to students not achieving at expected levels to increase on track rates for all grade level cohorts, increasing opportunities for students to access post secondary educational and career opportunities. | With 65.5% of freshmen on track, 67.7% of sophomores on track, a 67.4% 5-year graduation rate, and only 22.1% of student eligible for selective 4 year colleges, early and ongoing identification and intervention strategies are needed to increase student outcomes and enable them to reach their post secondary goals with respect to their unique learning styles, English proficiency, disability status, and other social, emotional and academic factors that prevent students from achieving at expected levels. |
| Implement strategies to increase student daily and individual class attendance rates, reduce tardiness and truancy, and maximize on increased instructional time opportunities afforded by the Full School Day. | In order for students to be successful and achieve in school, they need to be in school to access academic learning, social development opportunities, emotional support, and postsecondary preparation for the maximum amount of time possible. Regular and timely attendance is a critical habit that needs to be internalized in during secondary education as it relates to postsecondary educational and career opportunities for success, and needs to improve from the current 89% level that is reflected in the overall student attendance rate at Kelly. |

Improve school climate as it relates to a positive impact upon all student and school outcomes through continued implementation of positive behavior strategies.

School climate is an area in which there is a discrepancy between teacher and staff perception (which is positive) and student reporting as measured in My Voice, My School, with a Weak rating in the area of "Supportive Environment" and 36% student perception of safety. Implementation of positive behavior intervention strategies and other programs and policies reduce misconducts (from current level of 5.8 per 100 students L 4-6) and increase student safety will enable Kelly High School to provide the positive environment that will maximize on opportunities for students to attend school and achieve at the maximum levels possible with respect to their individual needs.

| Programs & Services | |
|---|---|
| Advanced Placement Courses | English Language & Composition, English Literature & Composition, European History, US History, Calculus AB, Calculus BC, Biology, Chemistry, Spanish Language, Spanish Literature & Culture |
