## Mission Statement as of May 2013

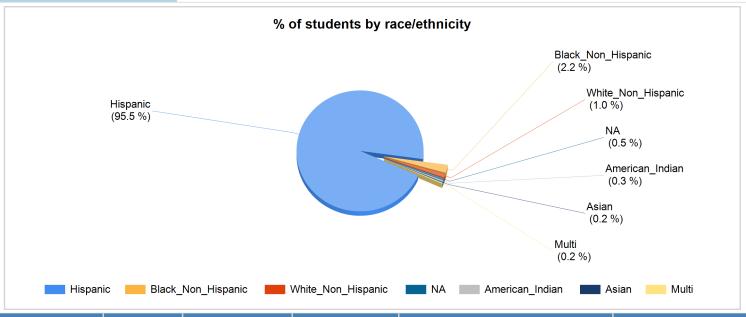

Learn - Grow - Serve

## School Priorities as of May 2013

Description	Rationale
Literacy	Over 10 years of data continue to suggest that students at Lloyd need the most support from their teachers in the area of literacy. Whether we examine ISAT, Scantron, or the Fountas & Pinnell Benchmark Assessment data, the need to prioritize this area it impacts all students at Lloyd that need to become proficient readers, writers, and users of the English & Spanish languages. Our instruction needs to reflect the rigor of the expectations set in our ES goals, and the actions we systematically take to provide excellent instruction and meet our ES goals.
Mathematics	Our data continues to indicate that mathematics is the subject area of best performance for your students. Yet, only 23% of our students exceeded the ISAT standards in 2011. Data gathered through mCLASS Math and Scantron indicate that there is a need to ensure that math proficiency does not remain stagnant but increases over the next two years in strategic and transformational ways for our students. Our instruction needs to reflect the rigor of the expectations set in our ES goals, and the actions we systematically take to provide excellent instruction and meet our ES goals.
Science	Our science ISAT scores have been inconsistent at best over the past 5 years. As a result, the school has taken action in the past 2 years to built a solid science instruction foundation in grades K-5 so that 4th grade does not become a science test prep culture where hands-on science experimentation and learning are abandoned. Our instruction needs to reflect the rigor of the expectations set in our ES goals, and the actions we systematically take to provide excellent instruction and meet our ES goals.
Bilingual	Most of our students' bicultural and developing biliterate backgrounds pose a positive challenge we seek to tackle as they are expected to speak, listen, comprehend, write, compute, problem-solve, and learn in a 2nd (English) language. Thus, the need to become proficient mathematicians, scientists, readers, writers, and users of both the English & Spanish languages is hugely important. Our instruction needs to reflect the rigor of the expectations set in our ES goals, and the actions we systematically take to provide excellent instruction and meet our ES goals.

Social Emotional Learning (SEL)	There is a strong need for our students to continue to develop self-awareness and self-management skills to achieve school and life success. Instruction must be geared towards also ensuring our students' use of social-awareness and interpersonal skills to establish and maintain positive relationships, and demonstrate decision-making skills and responsible behaviors in personal, school, and community contexts.
