The growth at this school is above average, which means the students at this school generally showed higher growth than students nationally with the same pretest scores.

## Students Making Growth Targets

ABOVE  
AVERAGE

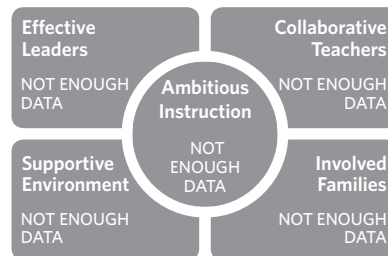

Students Making Growth Targets is the percent of students who reached the 40th percentile growth on STAR. This school has a high number of students reaching this level of growth.

## School Culture & Climate

NOT ENOUGH  
DATA

This school does not have enough data for a report. This may be because not enough teachers and students responded or because there are too few teachers or students in the school and thus we won't generate a report to protect their privacy. Results from the My Voice, My School 5Essentials surveys of students and teachers provide valuable information about a school's culture and climate.
