SCHOOL SEGMENT REPORT

The school segment report was designed as a way to review individual school operating budgets as categorized by educational program and grouped by instructional, administrative, support service and facilities costs as described below. The report reflects resources allocated directly in the schools' budgets and also projects the resources budgeted at the central office and city-wide level that are used to support the programs, activities and personnel of the individual schools.

Each school's segment report is available on the CD distributed with this book. The objective of the report is to present school budgets in a transparent and relevant manner. We anticipate using the lessons learned from its on-going development as a guide for further improvements to the transparent allocation and presentation of school resources.
