Project Summary

Project Type: Co-location School Improvement

Department: Facilities

Status: Planning

Unit Number: 46491

Budget Amount: **$3,970,000**

Budget Year: 2013

Estimated Project Start: April 2013

Estimated Project Complete: December 2013

Create co-existing and separate schools on a single campus by equitably allocating space and access to facility features. To maintain individual administrative identities, convert existing classrooms or offices into new administrative spaces, with corresponding independent telecommunication/intercom systems. Provide upgrades to science, computer, and art labs, or create new labs as needed; and a second library will be added, as space permits. Add window A/C units to all classrooms, when central air doesn't exist. Signage will be used to differentiate between respective entrances, offices, stairways, etc. Programmatic ADA upgrades will be provided to ensure that students, family members and visitors with disabilities have access to all programs within the school.
