IMPACT Disaster Recovery Project

Project Summary

Project Type: ITS - Other
Department: Information & Technology Services
Status: Planning
Unit Number: 12510

Budget Amount: $250,000
Budget Year: 2014
Estimated Project Start: July 2013
Estimated Project Complete: October 2014

Provides at a minimum real-time replication of student records data from our primary facility to a new DR site. Mitigates risk to the district in the event of a catastrophic outage to the current IMPACT infrastructure. The student information systems (IMPACT) are used DAILY by 20,000+ school based users to record a wide variety of critical student based data. This solution would reduce our restore time from the approximate 10 day turnaround now with tapes to several hours or possible minutes.

Financial Details

Project Phase	Original Budget
Hardware	$250,000
Project Total	**$250,000**

Current Estimate:	**$250,000**
Expenditure to Date:	**$0**
Percent Complete:	**0%**
Funding Source:	**CPS Resources**
Operating Impact:	**$0**

Details

Scope

Cost for application servers, database servers, consultants to support design and configuration, server software for replication.
