

Intrusion Prevention System (IPS) Replacement
--

Project Summary

Project Type: ITS - Other

Department: Information & Technology Services

Status: Planning

Unit Number: 12510

Budget Amount: \$750,000

Budget Year: 2014

Estimated Project Start: July 2013

Estimated Project Complete: October 2014

This system is responsible for detecting and reacting to security intrusion events and provides an additional layer of protection to our users. The current solution no longer has the capacity to support our bandwidth consumption and the software will be no longer supported 1/2014. This, combined with the expiry of patch support for Windows XP, will increase the likelihood of hacking of CPS systems and the spread of malware.

Financial Details

<u>Project Phase</u>	<u>Original Budget</u>	Current Estimate:	\$750,000
Hardware	\$750,000	Expenditure to Date:	\$0
		Percent Complete:	0%
		Funding Source:	CPS Resources
Project Total	\$750,000	Operating Impact:	\$0

Details

Scope

Includes licensing, appliances, consulting services to install.
