ASBESTOS ABATEMENT PROGRAM
SCHOOL INFORMATION FORM**

SECTION I

NAME OF SCHOOL DISTRICT: CHICAGO SCHOOL DIST 299
SCHOOL ID NUMBER: 14-016-2990-2119
SCHOOL NAME: Cauty School
ADDRESS OF SCHOOL: 3740 N Panama Avenue
CITY: Chicago, IL, 60634

DATE LAST THREE YEAR REINSPECTION WAS COMPLETED 9/29/2022

If the address on this form is different than the address of the building, submit a written explanation.

SECTION II *(Please type or print)*

PLEASE COMPLETE THE FOLLOWING FOR YOUR THREE YEAR REINSPECTION:

DATE REINSPECTION COMPLETED: 2/4/2025 ENROLLMENT 810
IDPH INSPECTOR LICENSE NUMBER: 100-07210
IDPH LICENSED INSPECTOR NAME (Please Print): Michael Holvay
IDPH MP LICENSE NUMBER: 100-07342
IDPH LICENSED MANAGEMENT PLANNER NAME (Please Print): Jigar Shah

DESIGNATED PERSON (Please Print): Richard J.Schleyer PHONE: (773) 251-7074

Signature of Designated Person

2/19/2025
Date

SECTION III

PLEASE COMPLETE THE FOLLOWING INFORMATION FOR ANY CHANGES WITHIN THE SCHOOL DISTRICT.

School building has been sold. Date of Sale: _____

School has been closed. Date closed: _____

School building has been demolished. Date: _____

School building is asbestos free since last reinspection: _____

Please explain in writing why the school building is now asbestos free and include the supporting documentation.

If a new school building has been added to the district, submit either an exclusionary statement or a management plan and inspection report. Include the complete name, address and city of school building.

Explain in writing if the address of the building is different than the address on this form:

Environmental Notification to Occupants

To: Faculty, Staff and Parents
From: Chicago Public Schools
Date: February 19, 2025

RE: Canty School, Unit 22541
3740 N Panama Avenue
Chicago, IL, 60634

Dear Faculty, Staff and Parents,

This letter is to notify you that the 2025 asbestos three year re-inspection has been completed at Canty School, following the Federal Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E and is available for your review at the main office of the school.

Although asbestos-containing building materials have been identified at Canty School, there is no reason to believe that any threat to the health of students or staff exists at this time. CPS will continue to carefully monitor the condition of asbestos-containing building materials and if conditions warrant, all appropriate steps will be taken to maintain the health and safety of all building occupants.

If you have any questions regarding this matter or require additional information, please feel free to contact Richard J. Schleyer, the designated Local Education Authority's Designated Person at (773) 251-7074.

Name: Richard J.Schleyer

II. EXECUTIVE SUMMARY

Specialty Consulting, Inc. was retained by the Chicago Public Schools (CPS) to perform a three-year asbestos reinspection of the Canty School. This inspection was conducted in accordance with the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) part 763.92 (b), and the ongoing Operations and Maintenance Program (O&M) originally designed in the School's Asbestos Management Plan. The purpose of this three-year reinspection is to record any condition changes in the asbestos-containing building material (ACBM) in the school since the previous three-year reinspection and the six-month periodic surveillance, to identify, assess, and include any Homogeneous Areas (HA) not identified in the Management Plan, and to recommend an appropriate response action to manage asbestos.

The inspector conducted a three-year reinspection of this facility under Illinois Department of Public Health (IDPH) school reinspection requirements and AHERA, sections 763.85 and 763.88. The main building and each addition to the main building, if constructed at different dates, were inspected separately. Laboratory accreditations are included in Appendix C, laboratory results are included in Appendix D, and chain of custody forms are included in Appendix E.

Note: During previous inspections, some of the HA(s) were identified together as 9" x 9" floor tile (FT), mastics assoc. with 9" x 9" FT, 12" x 12" FT, mastics assoc. with 12" x 12" FT, pipe insulation, etc. Some of these HA(s) have been re-identified by areas that are uniform in color, texture, construction date, application date, and general appearance.

The inspector has determined the following:

A. The following HAs have changed assessment categories for Building 2620:

B. The following new homogenous areas have been identified for Building 2620:

54	12" x 12" White with Multicolor Specs VFT
55	12" x 12" White w/ Multicolor Specs VFT Mastic
56	2' x 4' White w/ Holes Ceiling Tile
57	Vinyl Baseboard Mastic
58	Drywall System
59	Carpet Mastic

C. This reinspection covered only physically accessible and visible areas and materials that were identified in the LEA's management plan. The following materials were concealed and/or contained in areas that were inaccessible for sampling and have been classified as Assumed:

25	12"x12" White w/ Tan Spots VFT
38	Carpet Mastic
39	12"x12" White w/blue specks VFT
40	12"x12" White w/blue specks VFT Mastic
41	Terrazzo
42	Drywall, Tape, and Compound
43	Fire Doors - REMOVED
44	Terrazzo
46	Vinyl Baseboard Mastic
50	2' x 2' Green Vinyl floor tile
50A	2' x 2' Green Vinyl floor tile Mastic
51	2' x 2' Orange vinyl floor tile
51A	2' x 2' Orange vinyl floor tile Mastic
52	2' x 2' White w/ brown streaks VFT
52A	2' x 2' White w/ brown streaks VFT Mastic
53	12" x 12" Sand VFT
53A	12" x 12" Sand VFT Mastic
54	12" x 12" White with Multicolor Specs VFT
55	12" x 12" White w/ Multicolor Specs VFT Mastic
56	2' x 4' White w/ Holes Ceiling Tile
57	Vinyl Baseboard Mastic
58	Drywall System
59	Carpet Mastic

The following areas were deemed to be inaccessible:

51	2' x 2' Orange vinyl floor tile
I	Aircell Duct Insulation

Materials were also listed as "assumed" if they were in good condition and sampling was not conducted to avoid damage.

This reinspection was conducted by Michael Holvay, IDPH License # 100-07210. The Management Plan was updated by Jigar Shah, IDPH License # 100-07342. Inspector and Management Planner Licenses are included in Appendix B.

III. METHODOLOGY

Tasks performed on-site included the following:

1. Review current management plan, identify HA(s) and extract appropriate information.
2. Examine and verify abatement records.
3. Touch and visually and physically reinspect and reassess the condition of all friable known or assumed ACBM.
4. Touch and visually and physically reinspect all non-friable known or assumed ACBM to determine whether these materials have become friable since the last inspection or periodic surveillance.
5. Identify any condition changes that may affect Hazard Ranking of known ACBM or Assumed ACBM, as well as any HA(s) that have become friable since the last reinspection.
6. Collect bulk samples from each newly discovered friable HA or previously assumed and submit for laboratory analysis.
7. Tabulate reinspection findings and submit for management planner review and recommendations with appropriate response actions based on the AHERA Damage Category of the ACBM.
8. Submit reinspection findings and management planner recommendations to the LEA within thirty (30) days for inclusion into the management plan.

IV. ABATEMENT HISTORY

The information collected from the existing management plan and inspection report(s) and from interviews with the school official revealed that the following asbestos abatement was conducted at the school since the previous Three year Reinspection.

Abatement Dates:	4/7/2023
	4/7/2023
	4/7/2023
	4/7/2023
	11/26/2024
	11/26/2024
	11/26/2024

V. REASSESSMENTS AND RECOMMENDATIONS

The reassessments and recommendations are summarized in Tables I and II on the following pages. Detailed Hazard Assessment Sheets and Drawings and Photos (if applicable) are included in Appendix A.

VI. CONCLUSIONS

The Canty School Building 2620 Three-Year reinspection has been completed and response actions have been recommended for both friable and non-friable ACBM. A timely execution of the response actions recommended will enable the LEA and the Designated Person(s) to effectively manage the existing ACBM.

This three-year reinspection report should be inserted in the current Management plan at the CPS Central Office, and one (1) copy should be kept at the school for use when planning any renovation and/or demolition activities in areas where ACBM has been identified. Also, periodic surveillance documentation and any summary reports from any response actions that are executed at the school should be used to update the Management Plan.
