Re: Chicago Public Schools - 2025 Three-Year Reinspections

Dear Mr. Culbertson:

Specialty Consulting, Inc., Managing Environmental Consultant (MEC), conducted the Three-Year Reinspections and performed management plan updates for the Chicago Public Schools (CPS) facilities in Region 1, 2 Elementary Schools. Please update your records with the following information.

School District: 299                      Unit: 29291                      Region: 01                      IDPH ID: 14-016-2990-2468

School: Stone Academy                      Building ID: 6070

Address: 6239 N Leavitt Street

Chicago, IL, 60659

Building Contact: Conlon, Aidan

Contact Phone: 7088133559

Current Building Owners: Chicago Public Schools

Reinspection Date: 2/17/2025

Review Date: 03/21/2025

Inspector: Michael Holvay

Inspector IDPH License: 100-07210

Management Planner: Jigar Shah

Management Planner IDPH License: 100-07342

If you have any questions or comments, please contact us at (312) 319-7575

Sincerely,  
Specialty Consulting, Inc.

Jigar Shah  
100-07342

## **Environmental Notification to Occupants**

To: Faculty, Staff and Parents  
From: Chicago Public Schools  
Date: March 21, 2025

RE: Stone Academy, Unit 29291  
6239 N Leavitt Street  
Chicago, IL, 60659

Dear Faculty, Staff and Parents,

This letter is to notify you that the 2025 asbestos three year re-inspection has been completed at Stone Academy, following the Federal Asbestos Hazard Emergency Response Act (AHERA), 40 CFR Part 763, Subpart E and is available for your review at the main office of the school.

Although asbestos-containing building materials have been identified at Stone Academy, there is no reason to believe that any threat to the health of students or staff exists at this time. CPS will continue to carefully monitor the condition of asbestos-containing building materials and if conditions warrant, all appropriate steps will be taken to maintain the health and safety of all building occupants.

If you have any questions regarding this matter or require additional information, please feel free to contact Richard J. Schleyer, the designated Local Education Authority's Designated Person at (773) 251-7074.

### 5. Inspector

Inspector Name: Michael Holvay

Inspector IDPH license # 100-07210  
Reinspection Date: 2/17/2025

Signature:   
Date: 2/17/2025

Michael Holvay  
Project Manager

### 6. Management Planner

Management Planner Name: Jigar Shah

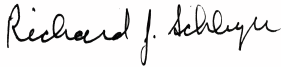

Management Planner IDPH license # 100-07342

Signature:   
Date: 03/21/2025

### 7. Review Date: 03/21/2025

### 8. LEA Designated Person's Acknowledgement

The reinspection report and recommendations have been received by me and appropriate action will be taken by the School District.

Signature: 

Date: 3/21/2025

Name: Richard J.Schleyer

## II. EXECUTIVE SUMMARY

Specialty Consulting, Inc. was retained by the Chicago Public Schools (CPS) to perform a three-year asbestos reinspection of the Stone Academy. This inspection was conducted in accordance with the United States Environmental Protection Agency (USEPA) Asbestos Hazard Emergency Response Act (AHERA) part 763.92 (b), and the ongoing Operations and Maintenance Program (O&M) originally designed in the School's Asbestos Management Plan. The purpose of this three-year reinspection is to record any condition changes in the asbestos-containing building material (ACBM) in the school since the previous three-year reinspection and the six-month periodic surveillance, to identify, assess, and include any Homogeneous Areas (HA) not identified in the Management Plan, and to recommend an appropriate response action to manage asbestos.

The inspector conducted a three-year reinspection of this facility under Illinois Department of Public Health (IDPH) school reinspection requirements and AHERA, sections 763.85 and 763.88. The main building and each addition to the main building, if constructed at different dates, were inspected separately. Laboratory accreditations are included in Appendix C, laboratory results are included in Appendix D, and chain of custody forms are included in Appendix E.

Note: During previous inspections, some of the HA(s) were identified together as 9" x 9" floor tile (FT), mastics assoc. with 9" x 9" FT, 12" x 12" FT, mastics assoc. with 12" x 12" FT, pipe insulation, etc. Some of these HA(s) have been re-identified by areas that are uniform in color, texture, construction date, application date, and general appearance.

The inspector has determined the following:

A. The following HAs have changed assessment categories for Building 6070:

B. The following new homogenous areas have been identified for Building 6070:

35	12"x12" White Replacement Floor Tile
35A	12"x12" White Replacement Floor Tile Mastic
36	Brown Laminate Flooring
37	Decorative Plaster
38	White Tape on Fiberglass Duct Insulation

C. This reinspection covered only physically accessible and visible areas and materials that were identified in the LEA's management plan. The following materials were concealed and/or contained in areas that were inaccessible for sampling and have been classified as Assumed:

01	Hard Coat Plaster
02	Brown Linoleum
02A	Brown Linoleum Mastic
03	9"x9" Green w/ White Streaks VFT -(Tile painted black)
03A	9"x9" Green w/ White Streaks VFT Mastic - (Tile painted black)
04	12"x12" White w/ Tan Specks VFT
04A	12"x12" White w/Tan Specks VFT Mastic
05	9"x9" White w/Green Streaks VFT (Tile painted black)
05A	9"x9" White w/Green Streaks Mastic (Tile painted black)
09A	9"x9" Red VFT Mastic
10	12"x12" Tan w/Tan Spots VFT
11	12"x12" White VFT
17	12"x12" Beige w/Tan Streaks VFT (over HA 12)
17A	12"x12" Beige w/Tan Streaks VFT Mastic (over HA 12)
18	12"x12" Tan Mottled VFT
18A	12"x12" Tan Mottled VFT Mastic
29	Pink Insulation
30	Firedoors
31	Asbestos Repair
32	12"x12" White w/tan streaks VFT
32A	12"x12" White w/tan streaks Mastic
33	12"x12" White w/blue speckles VFT
33A	12"x12" White/blue speckles VFT Mastic
35	12"x12" White Replacement Floor Tile
35A	12"x12" White Replacement Floor Tile Mastic
36	Brown Laminate Flooring
37	Decorative Plaster
38	White Tape on Fiberglass Duct Insulation
O	Hardcoat Plaster
Q	Carpet Mastic
R	Terrazo

The following areas were deemed to be inaccessible:

05A	9"x9" White w/Green Streaks Mastic (Tile painted
-----	--

black)

Materials were also listed as "assumed" if they were in good condition and sampling was not conducted to avoid damage.

This reinspection was conducted by Michael Holvay, IDPH License # 100-07210. The Management Plan was updated by Jigar Shah, IDPH License # 100-07342. Inspector and Management Planner Licenses are included in Appendix B.

### **III. METHODOLOGY**

Tasks performed on-site included the following:

1. Review current management plan, identify HA(s) and extract appropriate information.
2. Examine and verify abatement records.
3. Touch and visually and physically reinspect and reassess the condition of all friable known or assumed ACBM.
4. Touch and visually and physically reinspect all non-friable known or assumed ACBM to determine whether these materials have become friable since the last inspection or periodic surveillance.
5. Identify any condition changes that may affect Hazard Ranking of known ACBM or Assumed ACBM, as well as any HA(s) that have become friable since the last reinspection.
6. Collect bulk samples from each newly discovered friable HA or previously assumed and submit for laboratory analysis.
7. Tabulate reinspection findings and submit for management planner review and recommendations with appropriate response actions based on the AHERA Damage Category of the ACBM.
8. Submit reinspection findings and management planner recommendations to the LEA within thirty (30) days for inclusion into the management plan.

### **IV. ABATEMENT HISTORY**

The information collected from the existing management plan and inspection report(s) and from interviews with the school official revealed that the following asbestos abatement was conducted at the school since the previous Three year Reinspection.

Abatement Dates: 12/30/2022  
4/7/2023

### **V. REASSESSMENTS AND RECOMMENDATIONS**

The reassessments and recommendations are summarized in Tables I and II on the following pages. Detailed Hazard Assessment Sheets and Drawings and Photos (if applicable) are included in Appendix A.

### **VI. CONCLUSIONS**

The Stone Academy Building 6070 Three-Year reinspection has been completed and response actions have been recommended for both friable and non-friable ACBM. A timely execution of the response actions recommended will enable the LEA and the Designated Person(s) to effectively manage the existing ACBM.

This three-year reinspection report should be inserted in the current Management plan at the CPS Central Office, and one (1) copy should be kept at the school for use when planning any renovation and/or demolition activities in areas where ACBM has been identified. Also, periodic surveillance documentation and any summary reports from any response actions that are executed at the school should be used to update the Management Plan.
