CIWP Team & Schedules

Indicators of Quality CIWP: CIWP Team

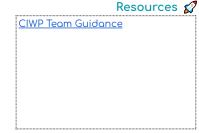

The CIWP team includes staff reflecting the diversity of student demographics and school programs.

The CIWP team has 8-12 members. Sound rationale is provided if team size is smaller or larger.

The CIWP team includes leaders who are responsible for implementing Foundations, those with institutional memory and those most impacted.

The CIWP team includes parents, community members, and LSC members.

All CIWP team members are meaningfully involved in the planning process for CIWP components and include other stakeholders, as appropriate for their role, with involvement along the CPS Spectrum of Inclusive Partnerships (from the CPS Equity Framework).

Indicators of a Quality CIWP: Reflection on Foundations

Schools reflect by triangulating various data sources, inclusive of quantitative and qualitative data, and disaggregated by student groups.

Reflections can be supported by available and relevant evidence and accurately represent the school's implementation of practices.

Stakeholders are consulted for the Reflection of Foundations.

Schools consider the impact of current ongoing efforts in the Reflection on Foundation.

Using the	ne associated references, is this practice consistently implemented?	References	What are the takeaways after the review of metrics?	Metrics
Yes	All teachers, PK-12, have access to high quality curricular materials, including foundational skills materials, that are standards-aligned and culturally responsive.	CPS High Quality Curriculum Rubrics	In Math we seem to struggle overall with growth and attainment. The students who were NOT meeting in 2020 are currently our 6th grade students so, there is a "gap" that needs to be addressed with them. From K-2 students are moving forward. As students get older we seemed to have lost ground. Those students were likely most impacted by the pandemic and lost foundation skill building. We have to make sure that testing is done with the students instead of "to" them. Talk to	IAR (Math) IAR (English) Rigor Walk Data (School Level Data
Yes	Students experience grade-level, standards-aligned instruction.	Rigor Walk Rubric Teacher Team Learning Cycle Protocols Quality Indicators Of Specially Designed Instruction	students about the testing that they will embark upon, let them express themselves and discuss areas that they think they need more support. Have integrity to the grading process and the access to equitable opportunities to do better. We have to change our mindset around how instruction is being delivered from the time that a lesson is taught, when it is practiced by the student, and when their mastery is demonstrated (how do we provide opportunities for students to master content?).	PSAT (EBRW) PSAT (Math) STAR (Reading)
Yes	Schools and classrooms are focused on the Inner Core (identity, community, and relationships) and leverage research-based, culturally responsive powerful practices to ensure the learning environment meets the conditions that are needed for students to learn.	Powerful Practices Rubric Learning Conditions	What is the feedback from your stakeholders? Based on parent survey, parents are aware of curriculum, communicate with teachers via Remind, email and classroom newsletter and feel welcome. However, they need to tier up their knowledge base. What exactly are the benchmarks, goals, and standards that their child(ren must reach and how can they help and/or increase their involvement as a result.	STAR (Math) iReady (Reading) iReady (Math)
Yes	The ILT leads instructional improvement through distributed leadership.	Continuum of ILT Effectiveness Distributed Leodership		Cultivate Grades ACCESS

Jump to	Curriculum & Instruction Inclusive & Supportive	Learning	Connectedness & Wellbeing Postsecondary Partnerships
Yes	School teams implement balanced assessment systems that measure the depth and breadth of student learning in relation to grade-level standards, provide actionable evidence to inform decision-making, and monitor progress towards end of year goals.	Customized Balanced Assessment Plan ES Assessment Plan Development Guide HS Assessment Plan Development	
		Assessment for Learning Reference Document	What, if any, related improvement efforts are in progress? What is the impact? Do any of your efforts address barriers/obstacles for our student groups furthest from opportunity?
Yes	Evidence-based assessment for learning practices are enacted daily in every classroom.		Some of the barriers have been attendance, and mobility of the student body. 30 - 50 % of the students who enter in Kindergarten transfer out along the way to 8th grade. Our cohort of students Age Cycle 3 thru Age Cycle 8 seem to be the most academically stable. We also had a lot of teacher transition in Middle School that contributed to student learning loss. There is definitely opportunity for us to push students over to the next range. There is a need for teachers to get a better understanding of the assessments and how
	What student-centered problems have surfaced during this refloation is later chosen as a priority, these are problems the school n		they are designed. We need to make sure that students have exemplars for each task. Make full use of the curriculum as

Students need more access to grade level instruction (improved Tier I instruction in the classroom). We have discovered that teachers struggle with developing GRR, running small groups, progress monitoring, DOK/HOTS, and co-teaching. Instruction needs to address the same structures, vocabulary, etc as the assessments that students will have to take. We can't just teach skills, we have to teach critical thinking. Are we messaging through our practice the importance of education. Are standard aligned learning targets being shared with our students, and is the learning aligned with the target? How do we wage the perception of the "gig" economy and careers obtained through formal education with our students? Is STEM the way to focus for this generation? More student friendly

Reflection on Foundation

Using the associated documents, is this practice consistently implemented?

Yes	Universal teaming structures are in place to support student connectedness and wellbeing, including a Behavioral Health Team and Climate and Culture Team.
No	Student experience Tier 1 Healing Centered supports, including SEL curricula, Skyline integrated SEL instruction, and restorative practices.
Yes	All students have equitable access to student-centered enrichment and out-of-school-time programs that effectively complement and supplement student learning during the school day and are responsive to other student interests and needs.
Partially	Students with extended absences or chronic absenteeism re-enter school with an intentional re-entry plan that facilitates attendance and continued enrollment.

What are the takeaways after the review of metrics?

Students have a better sense of wellbeing as it pertains to the safety they should feel within their classroom and their place within it (the classroom belongs to the student). Morning meetings should be built in across the board (schoolwide). More teacher input around what works well. Time seems to be a barrier. The more we speak a universal and consistent language at our school; the better. The roots of classroom management issues lie in students' difficulty in managing emotions and social relationships, and that had a direct and profound impact on their academic achievement.

What is the feedback from your stakeholders?

Students have the opprtunity to take a range of activities during OST and enrichment activities, like gardening, basketball, and academic activities. There will be an introduction of STEM activities, and robotics this spring. There is a need for enrichment and OST teachers to commulcate/share activities with homeroom teachers in order to supplement student learning. Enrichment and OST activities are in alignment with student and teacher interests. Consider including mentors (high school sts. community members etc).

What student-centered problems have surfaced during this reflection?

Student SEL experience is not consistent. We may need to participate in some "Best Practice" visits to see what SEL. D.L. and LRE look like in other schools. We also need to ensure that everyone learns how to navigate Branching Minds so that we have the data we need for our students on-hand. Our parents may not be able to advocate for their students as would an educator however, it is our job to make sure during each GLT meeting. that we do.

What, if any, related improvement efforts are in progress? What is the impact? Do any of our efforts address barriers/obstacles for our student groups furthest from opportunity?

SEL and PBIS programs and information will be made accessible and be implmented school-wide consistently in classrooms. SEL needs to be introduced and re-inforced during the classroom day. We will (as a staff) incorporate the techniques and study the book Social Emotional Learning (Essential Lessons for Student Success) by: Tom Conklin for 5-10 minutes

Connectedness & Wellbeing

Indicators of a Quality CIWP: Theory of Action

Theory of Action is grounded in research or evidence based practices.

Theory of Action is an impactful strategy that counters the associated root cause.

Theories of action explicitly aim to improve the experiences of student groups, identified in the Goals section, in order to achieve the goals for selected metrics.

Theory of Action is written as an "If we... (x, y, and/or z strategy), then we see... (desired staff/student practices), which results in... (goals)"

All major resources necessary for implementation (people, time, money, materials) are considered to write a feasible Theory of Action.

then we see...

students being more aware of themselves, better able to manage their feelings, proactive vs reactive, more self esteem, and overall confidence in themselves

which leads to...

improved social and emotional skills, attitudes, behavior and academic performance.

Return to Top **Implementation Plan**

Indicators of a Quality CIWP: Implementation Planning

Implementation Plan Milestones, collectively, are comprehensive to implementing their respective Theories of Action and are written as SMART goals. The number of milestones and action steps per milestone should be impactful and feasible.

Implementation Plan identifies team/person responsible for implementation management, monitoring frequency, scheduled progress checks with CIWP Team, and data used to report progress of implementation.

Implementation Plan development engages the stakeholders closest to the priority, even if they are not already represented by members of the CIWP team.

Action steps reflect a comprehensive set of specific actions which are relevant to the strategy for at least 1 year out.

Action steps are inclusive of stakeholder groups and priority student groups.

Action steps have relevant owners identified and achievable timelines.

SY25-SY26 Implementation Milestones

SY25 Anticipated Milestones Increased schoolwide attendance (5%). Increased student voice, and confidence. Systemic structures in place to engage student voice at all levels. Increased parent engagement.

SY26 Anticipated Milestones Environmental sustainability (recycling, conservation, eco-friendly awareness. Executive functioning mastery. Graduation to a new SEL system. Established effective communication channels with all stakeholders to make sure that everyone is involved in the school's mission, vision, and goals.

Return to Top Goal Setting

Indicators of a Quality CIWP: Goal Setting

Each priority has both Practice Goals & Performance Goals reflecting end-of-year outcomes (numerical targets are optional and based on on applicable baselines and trend data).

Practice Goals, and at least 1 Performance Goal per priority, can be frequently monitored (reported 3X/year or more).

Goals seek to address priorities and opportunity gaps by embracing the principles of Targeted Universalism.

There is consensus across the team(s) responsible for meeting the goals that the goals are ambitious and attainable based on anticipated strategies and unique school contexts.

Goals are reviewed and adjusted with most-current data sources, including MOY and EOY.

Schools designated as Comprehensive or Targeted Support by ISBE meet specified IL-EMPOWER goal requirements.

Resources: 💋

IL-EMPOWER Goal Requirements

For CIWP goals to fulfill IL-EMPOWER requirements, please ensure the following:

- -The CIWP includes a reading Performance goal
- -The CIWP includes a math Performance goal
- -The goals within the reading, math, and any other
- IL-EMPOWER goals include numerical targets
- -Schools designated as Targeted Support identify the student groups named in the designation within the goals above and any other IL-EMPOWER goals

Numerical Targets [Optional]

Reflection on Foundation

Using the associated documents, is this practice consistently implemented?

Yes	All teachers, PK-12, have access to high quality curricular materials, including foundational skills materials, that are standards-aligned and culturally responsive.
Yes	Students experience grade-level, standards-aligned instruction.
Yes	Schools and classrooms are focused on the Inner Core (identity, community, and relationships) and leverage research-based, culturally responsive powerful practices to ensure the learning environment meets the conditions that are needed for students to learn.
Yes	The ILT leads instructional improvement through distributed leadership.
Yes	School teams implement balanced assessment systems that measure the depth and breadth of student learning in relation to grade-level standards, provide actionable evidence to inform decision-making, and monitor progress towards end of year goals.
Yes	Evidence-based assessment for learning practices are enacted daily in every classroom.

What are the takeaways after the review of metrics?

In Math we seem to struggle overall with growth and attainment. The students who were NOT meeting in 2020 are currently our 6th grade students so, there is a "gap" that needs to be addressed with them. From K-2 students are moving forward. As students get older we seemed to have lost ground. Those students were likely most impacted by the pandemic and lost foundation skill building. We have to make sure that testing is done with the students instead of "to" them. Talk to students about the testing that they will embark upon, let them express themselves and discuss areas that they think they need more support. Have integrity to the grading process and the access to equitable opportunities to do better. We have to change our mindset around how instruction is being delivered from the time that a lesson is taught, when it is practiced by the student, and when their mastery is demonstrated (how do we provide opportunities for students to master content?).

What is the feedback from your stakeholders?

Based on parent survey, parents are aware of curriculum, communicate with teachers via Remind, email and classroom newsletter and feel welcome. However, they need to tier up their knowledge base. What exactly are the benchmarks, goals, and standards that their child(ren must reach and how can they help and/or increase their involvement as a result.

What student-centered problems have surfaced during this reflection?

Students need more access to grade level instruction (improved Tier I instruction in the classroom). We have discovered that teachers struggle with developing GRR, running small groups, progress monitoring, DOK/HOTS, and co-teaching. Instruction needs to address the same structures, vocabulary, etc as the assessments that students will have to take. We can't just teach skills, we have to teach critical thinking. Are we messaging through our practice the importance of education. Are standard aligned learning targets being shared with our students, and is the learning aligned with the target? How do we wage the perception of the "gig" economy and careers obtained through formal education with our students? Is

What, if any, related improvement efforts are in progress? What is the impact? Do any of our efforts address barriers/obstacles for our student groups furthest from opportunity?

Some of the barriers have been attendance, and mobility of the student body. 30 - 50 % of the students who enter in Kindergarten transfer out along the way to 8th grade. Our cohort of students Age Cycle 3 thru Age Cycle 8 seem to be the most academically stable. We also had a lot of teacher transition in Middle School that contributed to student learning loss. There is definitely opportunity for us to push students over to the next range. There is a need for teachers to get a better understanding of the assessments and how they are designed. We need to make sure that students have exemplars for each task. Make full use of the curriculum as designed.

We need to constantly celebrate "small" wins. Increase the volume of compliments that we give students daily.

Return to Top

Determine Priorities

Resources: 💋

What is the Student-Centered Problem that your school will address in this Priority?

Determine Priorities Protocol

Students...

will receive more access to quality Tier I instruction. Students must have access to grade level content. High quality tasks must be implemented well. This includes how we plan instruction, how we deliver it, and how students engage with us.

Indicators of a Quality CIWP: Determine Priorities

Schools determine a minimum of 2 Foundations to prioritize, with at least one being within the Instructional Core.

Priorities are informed by findings from previous and current analysis of data (qualitative and quantitative).

For each priority, schools specify a student-centered problem (within the school's control) that becomes evident through each associated Reflection on Foundation.

Priorities are determined by impact on students' daily experiences.

Return to Top

Root Cause

Resources: 💋

Resources: 💋

What is the Root Cause of the identified Student-Centered Problem?

5 Why's Root Cause Protocol

As adults in the building, we...

want to ensure that lesson learning targets address the standards, that the taxonomy level of lessons are being considered, ensure that the task and learning target are aligned, students are being provided opportunities to interact with one another, students are experiencing productive struggle, using academic vocabulary and challenging one another. Ensuring that all students in every tier is getting what they need.

Indicators of a Quality CIWP: Root Cause Analysis

Each root cause analysis engages students, teachers, and other stakeholders closest to each priority, if they are not already represented by members of the CIWP team.

The root cause is based on evidence found when examining the student-centered problem.

Root causes are specific statements about adult practice.

Root causes are within the school's control.

Return to Top

Theory of Action

What is your Theory of Action?

If we....

Indicators of a Quality CIWP: Theory of Action

use data (teacher self-assessment observation data, student achievement data) to identify powerful practices to use during explicit and small group instruction

Jump to... Priority TOA Goal Setting Progress Monitoring

Select the Priority Foundation to pull over your Reflections here =>

then we see....

improved overall quality of teaching with rigor and an increase in student learning

Curriculum & Instruction

Theory of Action is grounded in research or evidence based practices.

Theory of Action is an impactful strategy that counters the associated root cause.

Theories of action explicitly aim to improve the experiences of student groups, identified in the Goals section, in order to achieve the goals for selected metrics.

Theory of Action is written as an "If we... (x, y, and/or z strategy), then we see... (desired staff/student practices), which results in... (goals)"

All major resources necessary for implementation (people, time, money, materials) are considered to write a feasible Theory of Action.

which leads to...

more students reaching their personal growth targets by EOY. Additionally more students will become academically proficient and more developed as critical thinkers.

Return to Top Implementation Plan

Resources: 💋

Indicators of a Quality CIWP: Implementation Planning

Implementation Plan Milestones, collectively, are comprehensive to implementing their respective Theories of Action and are written as SMART goals. The number of milestones and action steps per milestone should be impactful and feasible.

Implementation Plan identifies team/person responsible for implementation management, monitoring frequency, scheduled progress checks with CIWP Team, and data used to report progress of implementation.

Implementation Plan development engages the stakeholders closest to the priority, even if they are not already represented by members of the CIWP team.

Action steps reflect a comprehensive set of specific actions which are relevant to the strategy for at least 1 year out.

Action steps are inclusive of stakeholder groups and priority student groups.

Action steps have relevant owners identified and achievable timelines.

Teacher as faciliator....use of Skyline or another more advance curriculum as students will have progressed beyond SAVVAS.

Goal Setting Return to Top

Indicators of a Quality CIWP: Goal Setting

Each priority has both Practice Goals & Performance Goals reflecting end-of-year outcomes (numerical targets are optional and based on on applicable baselines and trend data).

Practice Goals, and at least 1 Performance Goal per priority, can be frequently monitored (reported 3X/year or more).

Goals seek to address priorities and opportunity gaps by embracing the principles of Targeted Universalism.

There is consensus across the team(s) responsible for meeting the goals that the goals are ambitious and attainable based on anticipated strategies and unique school contexts.

Goals are reviewed and adjusted with most-current data sources, including MOY and EOY.

Schools designated as Comprehensive or Targeted Support by ISBE meet specified IL-EMPOWER goal requirements.

Resources: 💋

IL-EMPOWER Goal Requirements

For CIWP goals to fulfill IL-EMPOWER requirements, please ensure the following:

- -The CIWP includes a reading Performance goal
- -The CIWP includes a math Performance goal
- -The goals within the reading, math, and any other
- IL-EMPOWER goals include numerical targets
- -Schools designated as Targeted Support identify the student groups named in the designation within the goals above and any other IL-EMPOWER goals

Numerical Targets [Optional]

If Checked:	/	Our school receives school improvement funding through Title I, Part A, 1003 (IL-Empower)
Complete IL-Empower Section below		This CIWP serves as your School Improvement Plan, which is required for schools in school improvement status (comprehensive or targeted) as identified by the Illinois State Board of Education (ISBE). The following section, "IL-Empower," addresses grant requirements, assurances, and alignment across your CIWP, grant budget, and state designation.
If Checked: No action needed		Our school DOES NOT receive school improvement funding through Title I, Part A, 1003 (IL-Empower). (Continue to Parent & Family Plan)

IL-Empower

IL-EMPOWER GRANT ASSURANCES

By checking the boxes below, you indicate that your school understands and complies with each of the grant assurances listed.

The purpose of the IL-Empower grant funds, authorized under Title I, Part A, Section 1003 School Improvement of the Elementary and Secondary Education Act, is to support local education gaencies (LEAs), via the Statewide System of Technical Assistance and Support (IL-EMPOWER) to serve schools implementing comprehensive support and improvement activities or targeted support and improvement activities. The goal is to provide all children significant opportunity to receive a fair, equitable, and high-quality education by providing adequate resources to substantially raise the achievement of students in lowest and underperforming schools, as defined by the Illinois State Board of Education (ISBE). The purpose of the funding is to build the capacity of school leaders to implement effective school improvement practices, and the goal is to enable schools in improvement status to improve student achievement and performance outcomes and to exit status. 🗾 Funding will be used only to develop, implement and/or monitor School Improvement Plans (SIPs) / CIWPs. Grant funds may be used for the following types of planning and implementation activities: q) Paying school personnel to collaborate and to develop, implement, and monitor school improvement plans b) Contracting for professional services from State-Approved Learning Partners c) Conducting school-level needs assessments d) Analyzing data e) Identifying resource inequities f) Researching and implementing evidence-based interventions a) Purchasing standards-aligned curriculum and materials h) Purchasing and administering local assessments for progress monitoring Supplement, not supplant is in effect. Schools and LEAs shall use IL-Empower grant funds only to supplement the funds that would, in the absence of such federal funds, be made available from state and local sources for the education of students participating in programs assisted under this part, and not to supplant such funds. Schools designated for comprehensive or targeted support can expect four years of continuation funding from the initial summative designation. Improvement status defines the up-to four-year term that runs concurrently with the IL-EMPOWER grant program. Status and funding begin with an initial summative designation of comprehensive or targeted and continue through the remaining part of the first year in the planning phase of the grant and are followed by three consecutive years of implementation. School Improvement funding is awarded concurrently with improvement status. Improvement status and grant funding continue concurrently for up to four years regardless of positive changes in annual summative designations because IL-EMPOWER is structured to support local efforts with scaffolded support of sufficient size and longevity to improve outcomes for students and exit improvement status within a four-year grant term. School Improvement Reports (SIR) are due on a triannual basis. Schools in comprehensive improvement status must work with a State-Approved Learning Partner to address areas identified in the respective school improvement plans. Schools in targeted improvement status may or may not elect to work with a State-Approved Learning Partner. Approved Learning Partners are contracted by ISBE and are authorized to provide direct professional learning services in evidence-based practices to LEAs and comprehensive and targeted schools. Only vendors selected for an executed contract with ISBE may provide services to IL-Empower districts and schools (both comprehensive and targeted) using Title I, Part A, Section 1003 School Improvement funds, and likewise only those subcontractors included in either the executed contract or subsequent written approval by ISBE may provide services to IL-EMPOWER districts and schools. As a grant recipient, you may be required to participate in program evaluation activities, site monitoring visits, and audit protocols.

As part of annual grant application and amendment processes, you may be asked to submit additional information regarding budget requests and alignment of budget allocations to CIWP.

IL-EMPOWER SMART GOALS

Of the goals developed earlier in this CIWP, please choose at least 2, and up to 3, that will be your focus areas for IL-Empower. These goals should be in alignment with your ISBE designation and reference specific student groups, as applicable. As part of the annual grant application and amendment processes, please be prepared to outline how your IL-Empower grant budgets will support the chosen goal(s).

Parent and Family Plan

If Checked:	✓	Our school is a Title I school operating a Schoolwide Program
Complete School & Family Engagement Policy, School & Family Compact, and Parent & Family Engagement Budget sections		This CIWP serves as your comprehensive Title I plan, which is a federal requirement for every Title I school operating a schoolwide program. As outlined in the federal legislation, this plan must be reviewed on at least an annual basis, and it must be made available to the district, parents, and the public. The following section, "Title I Schoolwide Programs and Parent Involvement," addresses the federal Title I requirements around meaningful parent and family involvement in developing and implementing Title I schoolwide programs.
If Checked:		Our school is a non-Title I school that does not receive any Title I funds.
No action needed		(Continue to Approval)

SCHOOL & FAMILY ENGAGEMENT POLICY

ESSA, Title I, Part A law requires schools to develop a parent and family policy that reflects their commitment to develop best engagement practices and maximizes meaningful consultation. Checking the boxes below indicates that your school understands and complies with each requirement listed.

- The school will hold an annual meeting at a time convenient to parents and families during the first month of school to inform them of the school's participation in ESSA, Title I programs and to explain the Title I requirements and their right to be involved in the Title I programs. The school will also hold an annual Title I PAC Organizational meeting at which 4 PAC officers are elected and monthly meeting dates are identified. The school will also offer parental and family engagement meetings, including monthly school PAC meetings, at different times and will invite all parents and key family members of children participating in the ESSA, Title I program to these meetings, and encourage them to attend.

 At the request of parents, schools will provide opportunities for regular meetings, including the School Parent Advisory Council meetings, for parents and family members to formulate suggestions and to participate, as appropriate, in decisions about the education of their children.

 Schools will provide parents a report of their child's performance on the State assessment in at least math, language arts and reading.

 Schools will provide parents timely notice when their child has been assigned to, or taught by, a teacher who is not "highly qualified," as defined in the Title I Final Regulations, for at least four (4) consecutive weeks.
- Schools will assist parents of participating ESSA Title I children in understanding: the state's academic content standards; the state's student academic achievement standards; the state and local academic assessments, including alternate assessments; the requirements of Title I, Part A; how to monitor their child's progress; and how to work with educators.
- Schools will provide information, resources, materials and training, including literacy training and technology, as appropriate, to assist parents and family members in working with their children to improve their academic achievement, and to encourage increased parental involvement.
- Schools will educate all staff in the value and utility of contributions by parents and family and in how to reach out to, communicate, and work with parents and family as equal partners in the education of their children and in how to implement and coordinate parent and family programs and build ties with parents and family members.
- Schools will, to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other federal, state, and local programs, including public preschool programs, and conduct
- other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.
- Schools will ensure that information related to the school and parent and family programs, meetings, and other activities is sent to parents in understandable and uniform formats, including language.

SCHOOL & FAMILY COMPACT

Your school shall jointly develop, with parents, a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. Checking off the statements below indicates your school will develop a compact that complies with each requirement. Compact statements will be housed at the school and shared with all parents.

The school will provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the participating student to meet the State's student academic achievement standards.

The school will hold parent-teacher conferences.

The school will provide parents with frequent reports on their children's progress.

The school will provide parents reasonable access to staff.

\checkmark	The school will provide parents, as appropriate, opportunities to engage in and volunteer with school activities.
\checkmark	The parents will support their children's learning.
\checkmark	The students will share the responsibility for improved student academic achievement by engaging in behaviors such as good attendance, positive attitude, and class preparation, among others.

PARENT & FAMILY ENGAGEMENT BUDGET

The overarching goal for Title I Parent & Family Engagement funds is to increase student academic achievement through parental and family engagement and supporting skills development. In the box below, identify the academic priority areas around which your parent engagement & skills development will be aligned. As a reminder, use of your funds must occur in consultation with parents.

Workshops and Trainings, Field Experiences with the FACE Department at Dyett High School, and supplies.

In order to maintain compliance with the use of Title I Parent & Family Engagement funds, please review and check each box below to indicate that your school understands and complies with the requirements following. We will...

- Spend Parent & Family Engagement Funds in a timely manner (Average 10%/month)
- Collaborate with parents, prioritizing PAC officers, to decide on Title I expenditures
- Assure that funds impact the majority of parents or focus on parents with students most at academic risk
- Provide up to date monthly fund reports to PAC officers
- Maintain a binder with the original documents related to PAC meetings, presentations, fund expenditures and other evidence of collaboration
- Provide support to PAC officers including but not limited to consultation about fund usage, meeting set-up, information dissemination, and organizational support
