Reflection on Foundations Protocol

Partnerships & Engagement

Indicators of a Quality CIWP: Reflection on Foundations

Schools reflect by triangulating various data sources, inclusive of quantitative and qualitative data, and disaggregated by student groups.

Reflections can be supported by available and relevant evidence and accurately represent the school's implementation of practices.

Stakeholders are consulted for the Reflection of Foundations.

Schools consider the impact of current ongoing efforts in the Reflection on Foundation.

### **Curriculum & Instruction**

Using t	he associated references, is this practice consistently implemented?	References	What are the takeaways after the review of metrics?	Metrics
Select Rating	All teachers, PK-12, have access to high quality curricular materials, including foundational skills materials, that are standards-aligned and culturally responsive.	<u>CPS High Quality</u> <u>Curriculum</u> <u>Rubrics</u>	Pathways In Education teachers have access to a robust standards-aligned and culturally responsive curriculum provided by SkyRocket Education Solutions. We implement our curriculum across three modalities - Small Group Instruction (SGI), Student Activity Workbooks (SAWs), and Edmentum. Regardless of the modality, all students experience grade-level, standards-aligned instruction, and evidence-based assessments. Evidence of this practice can be	I <u>AR (Math)</u> I <u>AR (English)</u> Rigor Walk Data (School Level Data)
Select Rating	Students experience grade-level, standards-aligned instruction.	Rigor Walk Rubric Teacher Team Learning Cycle Protocols	found in our rigor walks, where Pathways leadership and Options Network leaders observed both students and teachers for inner core components, elements of effective teaching, and grade level standards. In addition, our internal High Quality Teaching Indicator (HQTI) tool, serves as an ongoing evaluation of instructional practice to ensure curriculum and instruction practices are consistent. The ILT implements this continuous improvement practice with confidence, knowing it is rooted in Danielson's framework to ensure all teaching staff gain a deeper understanding of the domains, components, and elements of success. Academic progress was our primary instructional measurement last year. We developed effective routines and procedures to build teacher capacity. We met baseline expectations for much of the second semester. However, now that new accountability metrics from our authorizer have been revealed, we need to emphasize our instructional execution, interventions, and collaborative approach to teaching to boost student outcomes in AP, CA, and improve our one-year grad rate. To accomplish our accountability goals, we must raise our expectations for academic progress, build our collective efficacy, develop a holistic approach to STAR testing, and monitor progress to course correct, ensuring all students' needs are met.	<u>PSAT (EBRW)</u> <u>PSAT (Math)</u> <u>STAR (Reading)</u>
Select Rating	Schools and classrooms are focused on the Inner Core (identity, community, and relationships) and leverage research-based, culturally responsive powerful practices to ensure the learning environment meets the conditions that are needed for students to learn.	<u>Powerful</u> <u>Practices Rubric</u> <u>Learning</u> <u>Conditions</u>	What is the feedback from your stakeholders? Teacher/Student/Parent feedback is positive in the areas of engagement, and academic press. However, as indicated on our 5 Essentials Survey, there is a desire for more ambitious instruction. #### What student-centered problems have surfaced during this reflection?

If this Foundation is later chosen as a priority, these are problems the school may address in this CIWP.

Student-centered problems surfaced in the areas of student assessments being inconsistent and the need for more effective intervention strategies to close the achievement gap between grade-level assignments and demonstration of mastery. We realized our application of the instructional core is inconsistent across all our campuses, and intervention support is not closing the achievement gap. There is a need to collaborate among teachers, implement more consistent coaching practices, and highlight effective, research-based intervention strategies.

our institutional ambition. Pathways is piloting a new Professional Learning Community (PLC) this year to provide teachers with collaborative time to craft common assessments, identify at-risk students, and collaborate on intervention strategies. Our goal is to build collective instructional efficacy for Pathways teachers resulting in higher levels of achievement while centering on the instructional core (CPS) of identifying, community, and relationships. We feel these efforts will help us address any barriers or obstacles our students may face. Helping them experience core instruction that is responsive to and sustaining of who they are and what they bring, and empowers them to connect, to imagine, and to act as ethical, critical actors that shape the world. Lastly, we hope our initiatives to distill universal screening data and leveraging of benchmark assessments will result in better outcomes for our students.

created a mentor position to support new teachers. Both of these efforts are rooted in staff/student feedback to improve

### SEL Teaming <u>Structure</u>

What are the takeaways after the review of metrics?

Pathways In Education has made positive strides in efforts that contribute to improvements in an overall sense of Connectedness & Wellbeing in our school community. Over SY22-23, supports have been built out and staff and stakeholders have been empowered to offer tiered supports (Tier 1, Tier 2 and Tier 3) for students. We have surveyed staff, saught insight and best practices from distirct OSEL partners, as well as enlisted our school program in a 2 year Trauma Skilled Schools initiative that will empower staff to support students through a restorative lens who have had exposure to trauma. BHT & CCT teams have been established and a cadence of scheduled check-ins with campus specific needs have been implemented. During SY22-23, we have sourced a Tier 1 SEL Curriculum that takes into consideration the demographic of student population that our school serves and offers SEL lessons grounded in Hip Hop. Our SEL department across the PIE IL network has focused energies on providing our school community and stakeholders with a thoughtfully designed menu of MTSS interventions that empower all staff to support our efforts in providing a safe space for students that also offers applicable academic and/or SEL interventions. A consistent referral system has been implemented, and each Pathways campus employs a full time SEL Specialist. We have spent efforts laying the ground work, putting point people in place and training staff on

Yes	Student experience Tier 1 Healing Centered supports, including SEL curricula, Skyline integrated SEL instruction, and restorative practices.	interventions and SEL curriculum. In reflection, and now having knowledge of what OST programs have the capacity to offer students in direct alignment with Connectness and Wellbeing, it is exciting that Options programs' students will now have access and opportunities provided to them through OST programming as well. This will provide our school autonomy and creative opportunities to engage students, welcome them into our school community, and tap into their passions and interests. It is our ultimate goal that these supports will positively contribute to overall graduation rate, credit attainment, and attendance ~ and most importantly, a DESIRE to be at school.	Increased Attendance for Chronically Absent Students
Yes	All students have equitable access to student-centered enrichment and out-of-school-time programs that effectively complement and supplement student learning during the school day and are responsive to other student interests and needs.	What is the feedback from your stakeholders? Stakeholder feedback has been essential in Pathways' ability to grow and seek improvement in the area of Connectness and Wellbeing. Some of the main areas identified included our communication practices; stakeholders including staff, students and families all expressed a desire for transparency in communication and expectations. Our network has committed to sharing qtrly Pathways Newsletters informing stakeholders of all of the fantastic resources available to students, important dates and scheduling pieces, and academic/attendance expectations. Similarly, we have committed to publishing PD agendas, and all staff meeting	Reconnected by 20th Day, Reconnected after 8 out of 10 daysCultivate (Belonging & Identity)Staff trained on alternatives to exclusionary discipline (School Level Data)
Partially	Students with extended absences or chronic absenteeism re-enter school with an intentional re-entry plan that facilitates attendance and continued enrollment.	<ul> <li>continuited to publishing PD digenols, and at start meeting obligations with a week notice (within our locus of control), and sharing SY calendar of events and planned initiatives from inception. Focus groups are regularly held before Leadership proceeds with rolling out new initiatives so as to gather feedback and input from various stakeholders. Another important lesson learned from stakeholder feedback was our staffs desire to receive additional training on trauma informed practices based on our student demographic. Based on this feedback, our network of Pathways schools have enlisted in a two year Trauma Skilled Schools initiative that will provide training and education in support of equipping our staff with the skills and resouces to effectively support students.</li> <li>While our schools have offered Tier 1 SEL curriculum through Habitudes for two consecutive years thus far, stakeholder feedback showed that the curriculum we were using may not have been culturally responsive to our students' interests and demographic. With stakeholder feedback gathered through an SEL curriculum focus group, our schools have invested in an SEL curriculum we are confident are students will be more responsive and open to engaging in called We Do It For The Culture.</li> <li>As we enter into SY23-24, we leave a SY behind that had us "Believing Bigger, and Aiming Higher." This SY, used as a rally cry for all staff to identify with, we are "Accountable and Included." Our big rocks that were established during Strategic Planning this summer are designed with progress monitoring milestones that speak to our rally cry of being "Accountable and Included." ECCE Certification List	<ul> <li>with inconsistencies between post secondary platforms. In theory, rosters would reconcile from one platform to the next, to ensure supports are allocated according to student needs. The post secondary counselors have found great success in offering FAFSA workshops to help support our student demographic and families through the process, also valuable data gathered through surveying students and families. During SY22-23, our Supervisor of Post Secondary Success facilitated focus groups, sought feedback, and successfully implemented a Senior Seminar course that supports and guides our Seniors through their LPS tasks, FAFSA completion, Service Learning, and all non-academic graduation requirements.</li> <li>Staff and student feedback has also provided data that has helped us understand that our students thrive when they are given hands on experiential learning opportunities. Pathways has an incredible experiential learning program that gives students a window into what life working on a farm in CA might look like, or a ranch in CO. Our students can apply and participate in an interview process to qualify themselves for travel and field experience in environments that they may not alternatively have exposure to, such as Washington DC, and a Callege Tour trip custom designed based on their actual interests.</li> </ul>
Yes	There is an active Postsecondary Leadership Team (PLT) that meets at least 2 times a month in order to: intentionally plan for postsecondary, review postsecondary data, and develop implementation for additional supports as needed (9th-12th).	PLT Assessment	What, if any, related improvement efforts are in progress? What is the impact? Do any of your efforts address barriers/obstacles for our student groups furthest from opportunity?
Yes	Staffing and planning ensures alumni have access to an extended-day pay "Alumni Coordinator" through the Alumni Support Initiative during both the summer and winter/spring (12th-Alumni).	<u>Alumni Support</u> I <u>nitiative One</u> Pager	One of the areas identified in reflection that offer the highest lever of support for our student demographic is how to prepare them for the world after HS. Often times, when students come to enroll at Pathways, they have been either out of school for a significant duration of time, or they have found themselves off-track from their goals due to external barriers and hardships. It is the goal of our entire school community to provide support in educating our student
this Found	What student-centered problems have surfaced during this reflect lation is later chosen as a priority, these are problems the school may	t <b>ion?</b> y address in this	population with what skills, lexile levels and certifications are required for them to succeed in their goals. We have shifted our approach for the current SY to allow students to look ahead, give serious thought to the kind of career/skill they

CIWP.

A student-centered problem that exists within the Pathways In Education network of schools is the reality that our students face many unknowns as they approach the end of their HS experience. As they accomplish their graduation goals, they are challenged with a transition to life after HS, that for many lacks the wrap-around services that are essential in supporting students' success in their chosen pathway. We must continue to prioritize supplemental supports such as alumni outreach and work-based learning opportunities for our students to better prepare them for their departure from high school.

### **Partnership & Engagement**

Using t	he associated references, is this practice consistently implemented?	References	What are the takeaways after the review of metrics?	Metrics
Partially	The school proactively fosters relationships with families, school committees, and community members. Family and community assets are leveraged and help students and families own and contribute to the school's goals.	<u>Spectrum of</u> <u>Inclusive</u> Partnerships	Parent/Guardian/Community (stakeholders) involvement remains an area of growth for all Pathways schools. After reviewing the metrics, we know we need to provide more opportunities for stakeholders to get involved. Pathways proactively fosters relationships with families, school committees, and community members but struggles with parent attendance. We are committed to fostering two-way communication with families and encouraging their involvement in school activities. Similarly, we have student-led councils who provide input and feedback on our continuous improvement efforts.	<u>Cultivate</u> <u>5 Essentials Parent</u> <u>Participation Rate</u> <u>5E: Involved Families</u>

<u></u>

What student-centered problems have surfaced during this reflection? If this Foundation is later chosen as a priority, these are problems the school may address in this CIWP.

By intentionally engaging all stakeholders through a combination of various outreach attempts (marketing, calls, community events), we will make stronger connections across PIE and the broader Chicago landscape. We realized many of students, although 18 or older, still have engaged parents who want to be included in their child's education. One challenge we face is when students who are 18+ do not want their parents involved. We've tried to mitigate this challenge by inviting them to school functions but more work must be done to create a village approach to student development.

What, if any, related improvement efforts are in progress? What is the impact? Do any of your efforts address barriers/obstacles for our student groups furthest from opportunity?

Pathways is ambitious to create a Parent Advisory Council to serve all four centers. We seek parents to assist with translation efforts during PTC to break down barriers and capture more of their feedback on school programming. School messenger will be leveraged to send mass information to students and parents, keeping them informed on the day-to-day operations, and a dual language newsletter will be released three times a year (BOY, MOY, EOY) acknowledging school happenings. Our approach to Parent-Teacher Conferences will include a longer time frame to connect. This means the week leading up to PTC will be strongly centered on outroach to operate student or parents in discussed and outreach to ensure student progress is discussed and opportunities are given to provide general or specific feedback.

#### Using the associated documents, is this practice consistently implemented?

#### What are the takeaways after the review of metrics?

Select Rating	All teachers, PK-12, have access to high quality curricular materials, including foundational skills materials, that are standards-aligned and culturally responsive.
Select Rating	Students experience grade-level, standards-aligned instruction.
Select Rating	Schools and classrooms are focused on the Inner Core (identity, community, and relationships) and leverage research-based, culturally responsive powerful practices to ensure the learning environment meets the conditions that are needed for students to learn.
Select Rating	The ILT leads instructional improvement through distributed leadership.
Select Rating	School teams implement balanced assessment systems that measure the depth and breadth of student learning in relation to grade-level standards, provide actionable evidence to inform decision-making, and monitor progress towards end of year goals.
Select Rating	Evidence-based assessment for learning practices are enacted daily in every classroom.

#### Pathways In Education teachers have access to a robust standards-aligned and culturally responsive curriculum provided by SkyRocket Education Solutions. We implement our curriculum across three modalities - Small Group Instruction (SGI), Student Activity Workbooks (SAWs), and Edmentum. Regardless of the modality, all students experience grade-level, standards-aligned instruction, and evidence-based assessments. Evidence of this practice can be found in our rigor walks, where Pathways leadership and Options Network leaders observed both students and teachers for inner core components, elements of effective teaching, and grade level standards. In addition, our internal High Quality Teaching Indicator (HQTI) tool, serves as an ongoing evaluation of instructional practice to ensure curriculum and instruction practices are consistent. The ILT implements this continuous improvement practice with confidence, knowing it is rooted in Danielson's framework to ensure all teaching staff gain a deeper understanding of the domains, components, and elements of success. Academic progress was our primary instructional measurement last year. We developed effective routines and procedures to build teacher capacity. We met baseline expectations for much of the second semester. However, now that new accountability metrics from our authorizer have been revealed, we need to emphasize our instructional execution, interventions, and collaborative approach to teaching to boost student outcomes in AP, CA, and improve our one-year grad rate. To accomplish our accountability goals, we must raise our expectations for academic progress, build our collective efficacy, develop a holistic approach to STAR testing, and monitor progress to course correct, ensuring all students' needs are met.

#### What is the feedback from your stakeholders?

Teacher/Student/Parent feedback is positive in the areas of engagement, and academic press. However, as indicated on our 5 Essentials Survey, there is a desire for more ambitious instruction. In schools with strong ambitious instruction, classes are challenging and engaging. The instruction is clear, and well-structured, and encourages students to build and apply knowledge. Our student/teacher feedback suggests improvement in the areas of Math and English rigor. Our areas of focus will be on creating instruction that is well-defined with clear expectations for student success, interactive, and encourages students to build and apply knowledge.

#### What student-centered problems have surfaced during this reflection?

Student-centered problems surfaced in the areas of student assessments being inconsistent and the need for more effective intervention strategies to close the achievement gap between grade-level assignments and demonstration of mastery. We realized our application of the instructional core is inconsistent across all our campuses, and intervention support is not closing the achievement gap. There is a need to collaborate among teachers, implement more consistent coaching practices, and highlight effective, research-based intervention strategies.

# What, if any, related improvement efforts are in progress? What is the impact? Do any of our efforts address barriers/obstacles for our student groups furthest from opportunity?

ILT has identified the need for an additional instructional coach to serve as our northside support. In addition, we created a mentor position to support new teachers. Both of these efforts are rooted in staff/student feedback to improve our institutional ambition. Pathways is piloting a new Professional Learning Community (PLC) this year to provide teachers with collaborative time to craft common assessments, identify at-risk students, and collaborate on intervention strategies. Our goal is to build collective instructional efficacy for Pathways teachers resulting in higher levels of achievement while centering on the instructional core (CPS) of identifying, community, and relationships. We feel these efforts will help us address any barriers or obstacles our students may face. Helping them experience core instruction that is responsive to and sustaining of who they are and what they bring, and empowers them to connect, to imagine, and to act as ethical, critical actors that shape the world. Lastly, we hope our initiatives to distill universal screening data and leveraging of benchmark assessments will result in better outcomes for our students.

#### **Determine Priorities**

1 de la

#### Resources: 💋

#### What is the Student-Centered Problem that your school will address in this Priority?

#### Students...

Student-centered problems surfaced in the areas of student assessments being inconsistent and the need for more effective intervention strategies to close the achievement gap between grade-level assignments and demonstration of mastery. We realized our application of the instructional core is inconsistent across all our campuses, and intervention support is not closing the achievement gap. There is a need to collaborate among teachers, implement more consistent coaching practices, and highlight effective, research-based intervention strategies.

### Determine Priorities Protocol

#### Indicators of a Quality CIWP: Determine Priorities

Schools determine a minimum of 2 Foundations to prioritize, with at least one being within the Instructional Core.

Priorities are informed by findings from previous and current analysis of data (qualitative and quantitative).

For each priority, schools specify a student-centered problem (within the school's control) that becomes evident through each associated Reflection on Foundation. Priorities are determined by impact on students' daily experiences.

#### What is the Root Cause of the identified Student-Centered Problem?

#### As adults in the building, we...

We are challenged with creating remedial intervention opportunities for students to recover grade-level gaps. Our tier institutional model will be focused on teacher collaboration, common assessments, and effective re-teaching. By implementing a structured PLC, teachers will feel empowered to review student work and make data-driven decisions.

#### 🔥 Indicators of a Quality CIWP: Root Cause Analysis

Each root cause analysis engages students, teachers, and other stakeholders closest to each priority, if they are not already represented by members of the CIWP team.

The root cause is based on evidence found when examining the student-centered problem.

Root causes are specific statements about adult practice.

Root causes are within the school's control.

Students								
When student	s do not feel	o sense of k	pelonoino or fe	el known or	cored for they are l	ess likely	Indicators of a Quality CIWP: Determine Priorities	

When students do not feel a sense of belonging, or feel known or cared for, they are less likely to come to school. Poor staff retention has been shown to negatively impact students' educational achievement. Both groups must be included in the learning process, recognized for their growth and achievement, and feel like they belong at Pathways. These experiences must be frequent and meaningful to attain a highly aspirational environment. When these conditions exist, student/staff experiences will drive deeper relationships building a stronger collaborative school culture and inspiring future accomplishments. An effective MTSS system that monitors behavior, SEL, and academic is the priority for our schools. Progress monitoring will allow for data-driven decison making and improved student outcomes.

Indicators of a Quality CIWP: Determine Priorities

Schools determine a minimum of 2 Foundations to prioritize, with at least one being within the Instructional Core.

Priorities are informed by findings from previous and current analysis of data (qualitative and quantitative).

For each priority, schools specify a student-centered problem (within the school's control) that becomes evident through each associated Reflection on Foundation.

Priorities are determined by impact on students' daily experiences.

Resources: 💋

Resources: 😰

#### What is the Root Cause of the identified Student-Centered Problem?

#### As adults in the building, we...

The current method of tracking for MTSS is not robust enough. Our BHT, CCT, and SEL components are thriving, but more emphasis on academic intervention is needed. Monitor student progress and intervene with the tools and resources required to meet the student's level of need. Teachers will gain a deeper understanding of our demographics and be better equipped to handle difficult conversations rooted in trauma and healing.

**Parent and Family Plan** If Checked:  $\checkmark$ Our school is a Title I school operating a Schoolwide Program This CIWP serves as your comprehensive Title I plan, which is a federal requirement for every Title I school operating a schoolwide program. As outlined in Complete School & Family the federal legislation, this plan must be reviewed on at least an annual basis, and it must be made available to the district, parents, and the public. The following section, "Title I Schoolwide Programs and Parent Involvement," addresses the federal Title I requirements around meaningful parent and family Engagement Policy, School & Family Compact, and Parent involvement in developing and implementing Title I schoolwide programs. & Family Engagement Budget sections If Checked: Our school is a non-Title I school that does not receive any Title I funds. (Continue to Approval) No action needed

#### SCHOOL & FAMILY ENGAGEMENT POLICY

ESSA, Title I, Part A law requires schools to develop a parent and family policy that reflects their commitment to develop best engagement practices and maximizes meaningful consultation. Checking the boxes below indicates that your school understands and complies with each requirement listed.

- The school will hold an annual meeting at a time convenient to parents and families during the first month of school to inform them of the school's participation in ESSA, Title I programs and to explain the Title I requirements and their right to be involved in the Title I programs. The school will also hold an annual Title I PAC Organizational meeting at which 4 PAC officers are elected and monthly meeting dates are identified. The school will also offer parental and family engagement meetings, including monthly school PAC meetings, at different times and will invite all parents and key family members of children participating in the ESSA, Title I program to these meetings, and encourage them to attend.
- At the request of parents, schools will provide opportunities for regular meetings, including the School Parent Advisory Council meetings, for parents and family members to formulate suggestions and to participate, as appropriate, in decisions about the education of their children.
- Schools will provide parents a report of their child's performance on the State assessment in at least math, language arts and reading.
- Schools will provide parents timely notice when their child has been assigned to, or taught by, a teacher who is not "highly qualified," as defined in the Title I Final Regulations, for at least four (4) consecutive weeks.
- Schools will assist parents of participating ESSA Title I children in understanding: the state's academic content standards; the state's student academic achievement standards; the state and local academic assessments, including alternate assessments; the requirements of Title I, Part A; how to monitor their child's progress; and how to work with educators.
- Schools will provide information, resources, materials and training, including literacy training and technology, as appropriate, to assist parents and family members in working with their children to improve their academic achievement, and to encourage increased parental involvement.
- Schools will educate all staff in the value and utility of contributions by parents and family and in how to reach out to, communicate, and work with parents and family as equal partners in the education of their children and in how to implement and coordinate parent and family programs and build ties with parents and family members.
- Schools will, to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other federal, state, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.
- Schools will ensure that information related to the school and parent and family programs, meetings, and other activities is sent to parents in understandable and uniform formats, including language.

#### SCHOOL & FAMILY COMPACT

Your school shall jointly develop, with parents, a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. Checking off the statements below indicates your school will develop a compact that complies with each requirement. Compact statements will be housed at the school and shared with all parents.

- The school will provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the participating student to meet the State's student academic achievement standards.
- The school will hold parent-teacher conferences.
- The school will provide parents with frequent reports on their children's progress.
- The school will provide parents reasonable access to staff.
- The school will provide parents, as appropriate, opportunities to engage in and volunteer with school activities.
- The parents will support their children's learning.
- The students will share the responsibility for improved student academic achievement by engaging in behaviors such as good attendance, positive attitude, and class preparation, among others.

#### PARENT & FAMILY ENGAGEMENT BUDGET

The overarching goal for Title I Parent & Family Engagement funds is to increase student academic achievement through parental and family engagement and supporting skills development. In the box below, identify the academic priority areas around which your parent engagement & skills development will be aligned. As a reminder, use of your funds must occur in consultation with parents.

During SY23-24, Pathways is putting support behind engaging parents and families in our students' academic experience. Historically, it has been a struggle to build consistent engagement with our school community. Many of our students are over the age of 18, work full time, or are parents themselves. Pathways focuses on welcoming families into the center for a Back to School Bash held annually, Family Conferences, as well as opening its doors for special heritage events. We commit to disseminating all school relevant information in a qtrly published Pathways Newsletter, and intentionally share regular school messaging through our SIS Parent Portal, and School Messenger. During SY22-23, Pathways began honoring students who have achieved "Honor Roll." In SY23-24, we aim to celebrate our students' accomplishments by hosting an event for Honor Roll students. Each year our school hosts a beautiful Prom and Graduation Ceremony that welcomes families to get involved. It is our hope that with support from idenitfying a Parent Involvement liaison for our program, that parent and family involvement will continue to bolster as the SY progresses.

In order to maintain compliance with the use of Title I Parent & Family Engagement funds, please review and check each box below to indicate that your school understands and complies with the requirements following. We will...

- Spend Parent & Family Engagement Funds in a timely manner (Average 10%/month)
- Collaborate with parents, prioritizing PAC officers, to decide on Title I expenditures
- $\blacksquare$  Assure that funds impact the majority of parents or focus on parents with students most at academic risk
- Provide up to date monthly fund reports to PAC officers
- Maintain a binder with the original documents related to PAC meetings, presentations, fund expenditures and other evidence of collaboration
- 🗹 🛛 Provide support to PAC officers including but not limited to consultation about fund usage, meeting set-up, information dissemination, and organizational support
