Mission Statement as of May 2013

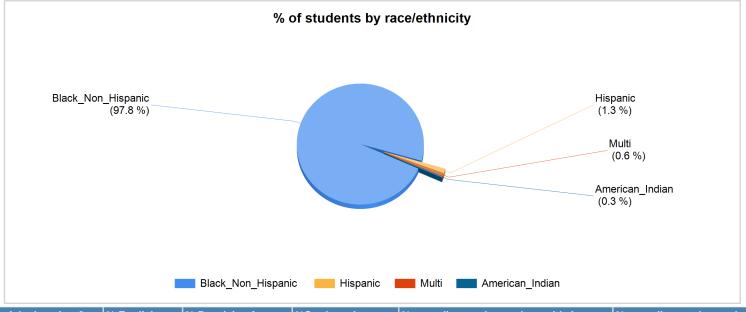

The Douglass School vision is to provide a learning community where all students become active problem solvers, self-confident, highly inquisitive, function effectively in the community and develop a sense of pride through cultural awareness.

To accomplish our mission, the Douglass School commits to involving all stakeholders to assist in the development of an academic program that increases students' reading achievement through professional development, implementation of the Chicago Reading Initiatives, utilizing higher order thinking skills, and the infusion of technology in all subject areas.

School Priorities as of May 2013

| Description | Rationale |
|---|---|
| Douglass will connect the whole school community to learning and family partnerships that lead to student outcomes that exceed all expectations. (SEL) | For students to become knowledgeable and increasingly independent, they must be ready and motivated to learn, and capable of applying and integrating new information into their lives. For students to become increasingly responsible, they must be able to understand risks and opportunities, and be motivated to choose actions and behaviors that serve not only their own interests, but also thoseof others. For students to become caring, they must be able to see beyond themselves and appreciate the concerns of others. |
| Douglass H.S. will create an environment for students to excel in their learning through the provision of an innovative Common Core Curriculum in a unique and challenging environment. Teachers will continue to assess student performance on College Readiness Standards and Common Core Standards performance tasks on a quarterly basis. (Common Core) | Chicago Public Schools and Douglass H.S. are ultimately responsible to the citizens of the Austin community for delivering an excellent education to all students. |
| Douglass will take advantage of the increased minutes added to the proposed school day. (Full School Day) | The increase in minutes add to each day for freshman and sophomores would make tutoring a requirement rather than an option. Students who would need to attend evening school would still be able to get tutoring help, and would also be able to recover credits. |

| Programs & Services | |
|-------------------------------------|--|
| Advanced Placement Courses | Studio Art-2D Design Design, English Language & Composition, English Literature & Composition, US Government & Politics |
| CTE: Citywide | No |
| CTE: Other | No |
