Mission Statement as of May 2013

The mission of Jones College Prep is to help students develop themselves as leaders through a rigorous college prep program that focuses on educating the whole person. The ideal Jones graduate at graduation would be on the road to becoming: intellectually competent, socially skilled and mature, compassionate, socially just and responsible, well-rounded and holistic.

School Priorities as of May 2013

Description	Rationale
Develop a Professional Development Cycle to support teachers in gaining skills and knowledge to better promote student success.	The School Effectiveness Framework highlights a lack of whole school professional development that allows for sufficient time and resources to develop, implement best practices, and monitor progress toward goals and objectives identified by the Instructional Leadership Team.
Develop a comprehensive framework for student assessment and data analysis	Jones lacks a systematic approach to assessing student academic performance and utilizing resulting data to inform instruction and raise levels of student achievement.
Develop a curriculum and instruction framework to guide and monitor effective practices to promote student growth and achievement	Rapidly changing curriculum demands (e.g. Common Core State Standards, growth of technology) necessitate a systematic and purposeful alignment of curriculum and instruction to meet evolving demand.
