Mission Statement as of May 2013

Our mission is to meet the diverse needs of individual students by developing within their active and creative minds a sense of understanding and compassion for others; provide them opportunities to achieve their personal best in all learning areas; expose them to the prerequisites needed to become college and career ready; and assist them in becoming responsible and productive citizens as they embrace lifelong learning in a safe and positive environment.

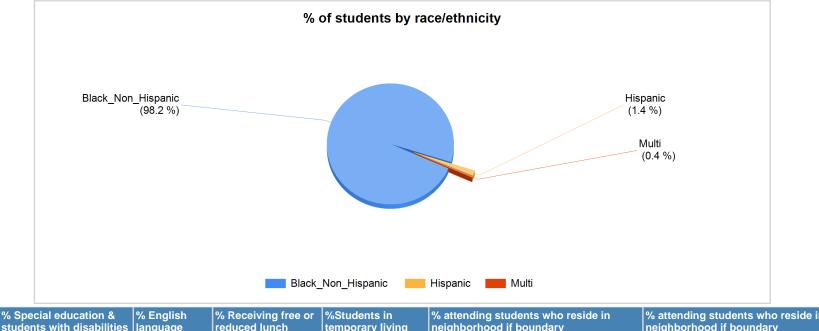

School Priorities as of May 2013

| Description | Rationale |
|---|--|
| To increase the percentage of students reading at Benchmark on the DIBELS assessment by 40 percentage points (from 60.0 to 100.0) by 2014, we will use the increase in instructional minutes and planning and preparation around the common core standards to provide additional reading support and progress monitoring to K-2 students identified on the beginning of the year screeners. | Based on mCLASS DIBELS reports, K-2 students are not entering 3rd grade with the needed reading prerequisites. According to research, we must engage students in more phonemic awareness, phonics and reading instruction including intervention and enrichment activities. This solid foundation will prepare them to successfully transition from learning to read to reading to learn. |
| To increase the percentage of 3-8 graders who meet/exceed in Reading on the ISAT by 33.7 percentage points (currently 66.3 to 100) by 2014, we will use the increase in instructional minutes and planning and preparation around the common core standards to provide reading enrichment, interventions and progress monitor identified students on the beginning of the year screeners. | Based on last year's State of 2011 ISAT Performance reports, our 3rd-8th grade students are making greater gains in Math than in Reading. We believe that this learning potential can carry on across subject areas. In order to increase our overall composite score and be on track towards our goal, we will increase the improve reading instruction and learning by providing more intensive and targeted instruction using informational text. |
| To increase the percentage of 3-8 graders exceeding in math on the ISAT by 32.9 percentage points (14.1 to 47.0) by 2014, we will use the increase in instructional minutes and planning and preparation around the common core standards to provide math enrichment, interventions and progress monitor identified students on the beginning of the year screeners. | Based on the last year's student performance on the ISAT Math (80.9% met/exceeded the standards), our students are capable of making the gains in Math to increase the number who exceed the standards. Math minutes must be increased and Math with more enrichment activities during and after school. |
| By the end of the 2013-2014 school year, students identified at the end of the 2011-2012 school year who had 3 or more misconduct reports, will improve their behavior in the classroom environment and school-wide by at least 85% as students respond to our tiered behavior intervention supports by receiving one referral or less. | According to Dashboard data, as of May 2012, there have been 60 misconduct reports for the 2011-2012 school year compared to 77 at the end of the 2010-2011 school year. We need to work to improve interventions for students receiving multiple discipline referrals to prevent the need for more severe consequences. |

To increase the level of participation of families and guardians in supporting student achievement from 65% (currently) to 80% by the end of the 2013-2014 school year, we will enhance our level of outreach and communication with families to improve participation at parent teacher conferences and other school-based events.

According to documentation collected from school-wide family events, we determined that while our families tend to participate in our "Family Night" events and programs to promote positive community, we need more parental support from the families of our Tier 2 and 3 students not meeting grade level expectations academically, behaviorally, or social-emotionally. We currently are averaging 65% of parents participating in 1st and 3rd quarter report card pick-up. To better support student learning based on our Rtl problem solving meetings and the large number of students requiring more intensive services, we need more active parent/guardian support.

| Programs & Services | |
|-------------------------------------|--|
| Advanced Placement Courses | No |
| CTE: Citywide | No |
| CTE: Other | No |
| CTE: Traditional Academy | No |
| CTE: Traditional Program | No |
| Health and Wellness | Crisis Intervention Services, School-based Dental Services |
| IB Wall-to-Wall/Programme | No |
