Mission Statement as of May 2013

South Shore Fine Arts Academy's mission is to prepare every student for success in high school and beyond by providing a standards based, vertically aligned, well integrated, and engaging curriculum tailored to meet all students' needs, including students with special needs.

School Priorities as of May 2013

Description	Rationale
Common core aligned reading instruction that focuses on ensuring students' deep understanding of identified power standards at each grade level.	The shift to Common Core standards includes focusing on fewer standards, but teaching them for deeper understanding. By identifying reading power standards and teaching them for deeper understanding, our students' reading achievement will improve.
Literacy in science instruction that relies upon appropriately complex non-fiction text and hands-on exploration to teach science standards.	By redefining science instruction as "literacy in science" instruction, we'll infuse more complex, non-fiction text into our curriculum, address the Common Core Reading Standards for non-fiction text, and improve our students science and reading achievement.
Response to Intervention (RTI) system that will systematically identify struggling students and provide individual students with appropriate supports to make expected or greater gains.	Our RTI Systems are somewhat clearly outlined, but to ensure that all students will achieve grade level standards, we need to reflect on and improve our systems for triggering RTI students, providing interventions, and re-assessing student progress.
