Mission Statement as of May 2013

We, in the Sullivan High School community, are dedicated to continual improvement by implementing a standards based curriculum in a positive , supportive environment that enables all students to achieve post-secondary success.

School Priorities as of May 2013

Description	Rationale
Teachers will implement benchmarking aligned to Common Core State Standards in 9th and 10th grade math and ELA classes	We need to implement more rigorous instruction focused on what students know and are able to do. This need is reflected in the low percentage of students meeting the College Readiness Benchmarks on the EPAS exams and the low percentage of freshmen and sophomores on-track.
The ILT will lead professional learning cycles with a school-wide focus on literacy.	Implementation of the common core state standards require a focus on non-fiction and content-area text. This will require professional development and professional learning focused on the CCSS reading for information standards.
Create a learning climate that provides positive supports in order to develop citizenship and post-secondary success for all students.	Through analysis of the My Voice, My School survey data we need to improve the overall learning climate of our school and provide students strategies and incentives to improve the overall academic environment of Sullivan HS.
