**Mission Statement as of May 2013**

West Ridge School in collaboration with parents, teachers, and community will create and participate in a teaching and learning environment that will provide rigorous educational experiences that meet the needs of students in literacy and interdisciplinary content areas while integrating technology and character education. The curriculum will build all students' skills in inquiry, understanding, knowledge, high school, and college and career readiness to achieve success in the future.

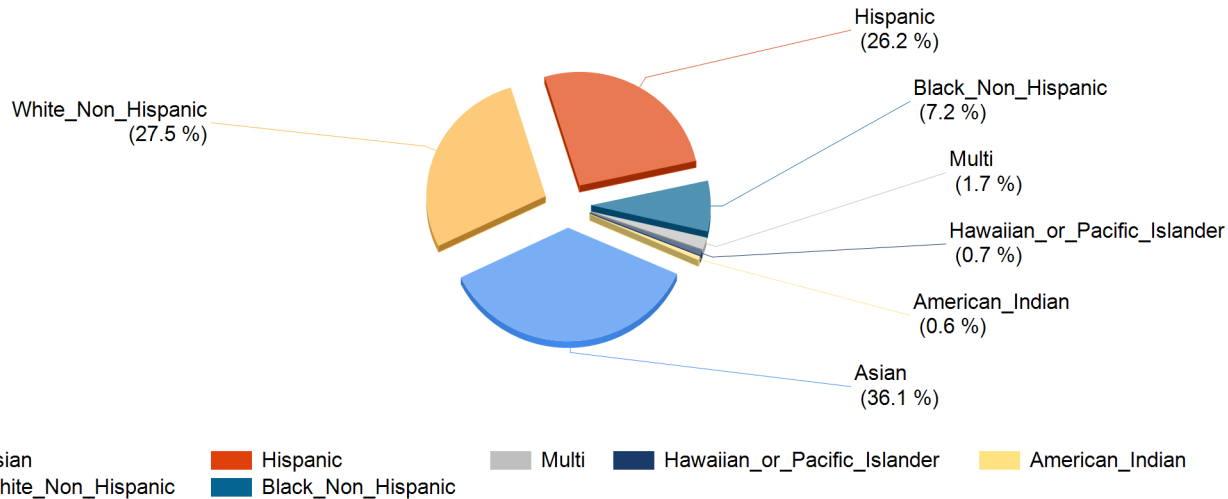

**School Priorities as of May 2013**

Description	Rationale
Implementing writer's workshop to provide more authentic writing opportunities and increase student literacy	We scored lower on our ISAT reading scores. By implementing the writer's workshop all students will have scaffolded literacy learning opportunities to build better readers, writers and thinkers.
Differentiated instruction will be consistent with Common core Standards and curricular fidelity	We need to increase the rigor in the curriculum since only 13% of our students currently exceed state ISAT standards target.
Provide math intervention to students that are below benchmark target in formative assessments and create basic math skill support to develop students' foundational knowledge and apply those skills in higher level applications.	We have a need to implement an intervention program in math as we have 72% meeting/exceeding ISAT math targets. To ensure student growth in math we will improve our intervention methods.
Implementing technology, electronic text, and digital media within the content areas to support high quality resources/information. Developing technology skills for teachers, students and parents. Providing instructional skills in the "Office Suite" and other software programs for students to incorporate in the content areas.	To improve student inquiry skills and Common Core aligned instruction with authentic texts, materials, and resources since 72% of the students have met the Science benchmark on the ISAT. For College Readiness, students must know how to use digital media, technology hardware and software to prepare for future proficiency.
Provide parents with support that addresses a deeper understanding of child development including academic and social growth.	Parents have expressed the need to acquire knowledge about their child's growth

## Programs & Services

<b>Advanced Placement Courses</b>	No
<b>Creative</b>	Choir/Chorus, Talent Show
<b>CTE: Citywide</b>	No
<b>CTE: Other</b>	No
<b>CTE: Traditional Academy</b>	No
<b>CTE: Traditional Program</b>	No
