Healthy CPS
Alignment Report
HIRSCH HS

The Healthy CPS Status pictured on the left is based on data from the Healthy CPS Survey, Learning Hub and IMPACT. The Healthy CPS status will be reflected on the SY1718 School Progress Report.

Healthy CPS demonstrates a school’s commitment to a safe and healthy learning environment by offering access to daily physical activity, nutritious foods, school-based health services, health education and supports for students with chronic conditions.

The Healthy CPS Indicator is the first ever comprehensive health-focused measure that is included on the CPS school progress report. It was created to help schools streamline health and wellness initiatives already taking place at the school. Learn more at cps.edu/HealthyCPS

If you have questions, please contact OSHW at 773.553.1311 or OSHW@cps.edu
The Student Medical Information form is distributed to all students and parents at the beginning of each school year.

With the proper documentation on file, students are allowed to carry their own medication, such as epinephrine or inhalers.

With the proper documentation on file, students are allowed to self-administer their own medication, such as epinephrine or inhalers.

All staff received asthma management education in the last two years.

All school staff received diabetes management education this school year.

The Delegated Care Aide (DCA) attended the OSHW Initial DCA training.

All school staff received food allergy management education in the last two years.

All school personnel know the location of the District-Issued EpiPens® at the school.

A minimum of two school staff members have completed the CPS Sexual Health Education Instructor Training.

All of the required sexual health education minutes are taught in all grade levels at my school (300 min in K-4, 675 min in 5th-12th).

My school sends at least one written notification about sexual health education to parents/guardians every year.

My high school offers daily physical education to all grades in alignment with the CPS PE Policy.

Fitness testing results for all students in grades 3-12 at my school are submitted into IMPACT CIM.

All high school students 9-12 receive nutrition education integrated in two courses required for graduation.

HIRSCH HS has achieved 61% of Healthy CPS criteria.

On average, schools across the district achieved 71% of Healthy CPS Criteria.

On average, schools in Network 12 achieved 62% of Healthy CPS criteria.

HIRSCH HS has achieved 40% more Healthy CPS criteria compared to SY1516.

SYMBOLS

✔ Achieved

✘ Not Achieved

NA Not Applicable

? No Data (i.e. did not complete Healthy CPS Survey)
