Healthy CPS Status pictured on the left is based on data from the Healthy CPS Survey, Learning Hub and IMPACT. The Healthy CPS status will be reflected on the SY17-18 School Progress Report.

Healthy CPS demonstrates a school’s commitment to a safe and healthy learning environment by offering access to daily physical activity, nutritious foods, school-based health services, health education and supports for students with chronic conditions.

The Healthy CPS Indicator is the first ever comprehensive health-focused measure that is included on the CPS school progress report. It was created to help schools streamline health and wellness initiatives already taking place at the school. Learn more at cps.edu/HealthyCPS.
GALE has achieved 20% of Healthy CPS criteria.

- On average, schools across the district achieved 65% of Healthy CPS criteria.
- On average, Network 2 schools achieved 79% of Healthy CPS criteria.
- GALE has achieved 38% fewer Healthy CPS criteria compared to SY1617.
