**MOVING
EVEREST
CHARTER
SCHOOL**

The mission of Moving Everest Charter School is to create a school that dramatically transforms the lives of K-8 students and prepares them for success in college and in life through: the delivery of a rigorous and personalized academic program, a focus on holistic education and the development of strong character.

Personalized Learning

Moving Everest will provide students with a student-centered and individualized learning program. Each student will have a personalized learning plan that is unique to his or her individual needs. Throughout each day, students experience: direct instruction, targeted small group learning and individualized computer instruction. The Moving Everest school design utilizes technology to foster personalization both in the classrooms and in our brain labs where students have opportunities to utilize programs such as Lexia and ST Math and **every student learns how to code.**

Character Development

Moving Everest students will participate in character building activities that are aligned with our core values:

- Curiosity
- Perseverance (grit, hard work and persistence)
- Respect and self-control
- Self-confidence
- Courage and a growth mindset.

Students are exposed to these values on a continuous basis because, developing a school culture and explicitly training students in non-cognitive skills and habits of mind yield substantial results in the lives of children.

Partnership with By The Hand Club For Kids

Students will benefit greatly from our partnership with a strong after-school provider that effectively extends the learning that takes place during the school hours. By The Hand Club For Kids (BTH) is a successful after-school program operating in Chicago for over fourteen years. The relationship with BTH is supplemental to the services offered during the school day and is an optional choice for parents. BTH will provide free after-school services to students, whose parents have chosen to enroll them, to further their social, emotional and academic development.

SCHOOL**

Nos comprometemos a ser una escuela que transforma radicalmente las vidas de los estudiantes de K-8 y los prepara para el éxito en la universidad y en la vida a través de: la entrega de un programa académico riguroso y personalizado, un enfoque en la educación holística y el desarrollo de carácter fuerte

Aprendizaje Personalizado

En Moving Everest, proporcionamos a los estudiantes un programa de aprendizaje individualizado. Creamos un plan para cada estudiante que es único para sus necesidades individuales. Durante el día escolar, los estudiantes experimentan: instrucción directa, aprendizaje selectivo de grupos pequeños e instrucción de computadora individualizada. Nuestra escuela está diseñada para utilizar la tecnología para el aprendizaje personalizado y en nuestros "laboratorios cerebrales", donde los estudiantes usan programas de computadora tales como "Lexia" y "ST Math" – cada estudiante aprende la codificación de la computadora.

Desarrollo de Personaje

Los estudiantes de Moving Everest participan en actividades de creación de personajes. Las actividades están alineadas con nuestras creencias centrales:

- Curiosidad
- Perseverancia (agallas, trabajo duro y persistencia)
- Respeto y autocontrol
- Auto confianza
- Coraje y una mentalidad de crecimiento.

Nuestros estudiantes están expuestos a estos valores diariamente. Priorizamos el desarrollo de una cultura escolar que entrena explícitamente a los estudiantes en habilidades socioemocionales y hábitos de la mente, ya que se ha demostrado que produce resultados significativos en las vidas de los niños.

Asociación con By The Hand Club For Kids

Nuestros estudiantes se benefician de nuestra asociación con un excelente proveedor después de la escuela. Todo lo que los estudiantes aprenden durante el día se extiende a las horas después de la escuela. By the Hand Club for Kids (BTH) es un exitoso programa extracurricular que opera en Chicago desde hace más de catorce años. Inscribirse en el programa después de la escuela es una opción opcional para los padres. El programa proporciona servicios suplementarios a los estudiantes para promover su desarrollo social, emocional y académico.
