

Dear Office of Innovation and Incubation at Chicago Public Schools,

My name is Antenna Moore and I am an Austin resident.

I am writing this letter in support of Moving Everest Charter School opening a second location. I believe in the expansion of the school will have a positive impact on the community because

I want something positive in my  
community. It's important to benefit  
everyone, not just ourselves.

Thank you for your time.

Sincerely,

Antenna Moore 9/1/2018.
